

VOLUME ONE

The material in Volume One consists of the present charter, reorganized, with obsolete language eliminated, but without substantive change. Much of Volume One is excised from the November 1969 voter's pamphlet, and carries forward only the minor changes in the relevant sections necessary to conform them to the balance of the charter. No substantive change is interded.

VOLUME TWO

The material in this volume goes beyond Volume One, which only eliminates obsolete language and reorganizes the present charter provisions. This volume contains the Committee's first year recommendations as they appeared in Proposition "E", together with a rewrite of the remaining two-thirds of the charter, which:

- (1) simplifies and modernizes the language; and
- (2) eliminates detailed procedure while preserving the substantive essence.

This volume then carries out the Committee's objective with respect to this two-thirds of the charter not considered the first year, of providing a brief, clear enabling charter, free of procedural detail.

VOLUME THREE

The possibility of including changes in budget procedure in the first stage of charter revision was discussed in the meeting in the mayor's office. This volume contains several alternatives as follows:

- a. Present charter provisions as reorganized in Volume One.
- b. Charter provisions proposed by the Committee in its first annual report, as modified by the Board of Supervisors.
- c. Charter provisions contained in the Model City Charter prepared by the National Municipal League.
- d. Suggested minimum changes in present charter provisions.

VOLUME FOUR

This volume contains an analysis of the major arguments raised against Proposition "E" in ballot book arguments, in materials presented to the Board of Supervisors, and in newspaper editorials. It proposes compromises which might serve as a starting point for the Committee in rethinking its first year's work.

VOLUME FIVE

In the event the proposed treatment of the retirement provisions in Volume One proves unsatisfactory, the sections in this volume could be used instead. These sections include all provisions of the existing charter except those which are obsolete

VOLUME SIX

This appendix contains all sections of the present charter with notations in the margin indicating their disposition. The numbers in the margin refer to the new section numbers of the reorganized charter in Volume One.

2.203 Clerk of the Board

Subject to the civil service provisions of this charter the board of supervisors shall appoint a clerk, who shall be designated as clerk of the board of supervisors.

The clerk shall, ex-officio, be clerk of the board of equalization. The clerk shall have charge of the office and records of the board and its committees, and the personnel employed to handle the business, affairs and operation of the board, its committees and members when engaged in official duty. The clerk shall be the appointing officer for such personnel, subject to the civil service provisions of this charter. The clerk shall keep a journal of proceedings of the board and files of all ordinances and resolutions and properly index the same. He shall be responsible for the publication, as required by law, of ordinances, resolutions and other matters acted on by the board for which publication is specified. He shall have such other duties and responsibilities as the board shall prescribe.

2.300 Action by Resolution or Ordinance

Action by the board of supervisors shall be by ordinance or resolution in writing introduced by a member or by a committee of said board and passed or adopted by a majority of all the members of the board at each reading. Every legislative act shall be by ordinance. The enacting clause of all ordinances shall be, "Be it ordained by the people of the City and County of San Francisco." Every ordinance and resolution, except ordinances making appropriations, shall be confined to one subject which shall be clearly expressed in the title, and ordinances making annual or supplemental appropriations shall be confined to the subject of appropriations.

If any subject is embraced in an ordinance and is not expressed in the title thereof, the ordinance shall be void only as to so much thereof as is not expressed in the title. Any ordinance may be amended by an ordinance amending or repealing the particular sections thereof or adding sections thereto.

An ordinance shall be passed by the board of supervisors only after reference to and report thereon from committee, unless it be an ordinance prepared and reported out by committee, and after two readings and votes at separate meetings of the board, which meetings shall be at least five days apart; provided, however, that as to an emergency measure as defined in section 2.301, reference to committee or the readings and votes at separate meetings may be waived by a three-fourths vote of all members of the board. The existing or impending emergency as defined in such ordinance shall be declared by specific section in such emergency ordinance. The annual appropriation ordinance shall be passed only after two readings, not less than five days apart, and the second or final passage shall be not less than fifteen days after the introduction of each ordinance.

2.301

No ordinance granting a franchise shall be finally passed within ninety days of its introduction.

No resolution shall be adopted by the board of supervisors on the date of its introduction and without reference to committee, except by the unanimous consent of the supervisors present.

Except as otherwise provided in this charter, or by ordinance, notice of the title or the purport and subject matter of each proposed ordinance which is introduced and referred to committee shall be published within three days after its presentation to the board and a copy of such proposed ordinance shall be kept available for inspection in the office of the clerk of the board. All ordinances shall be published upon passage for second reading. Emergency ordinances shall be published immediately on passage.

The vote on all ordinances and resolutions upon each reading shall be by ayes and noes. The vote by ayes and noes on all measures shall be recorded in the journal of the proceedings of the board.

To amend an ordinance which has proceeded to second reading shall require publication of the ordinance as amended and proceeding de novo.

Any ordinance or resolution waiving, or authorizing the waiving, by the city and county of the benefit of any statute of limitation of a state, or of the United States, available to the city and county in any action or proceedings against it shall require for its passage a three-fourths vote of all members of the board of supervisors on each reading.

2.301 Emergency Ordinances

No ordinance affecting franchises, grants, bond issues or the sale, lease or purchase of land shall ever be passed as an emergency

measure, and the people by initiative or referendum ordinance may further restrict the matters that may be passed as emergency measures. Immediate necessary preservation of public peace, property, health or safety, provision for the uninterrupted operation of any city and county department or office or action required to comply with time limitations as established by law, shall be emergencies within the meaning hereof; provided, however, that such emergency shall actually exist and shall be specifically stated and defined in such ordinance, and shall be specifically voted on as provided in section A of this charter.

(2.300)

2.302 Action by the Mayor

Each proposed resolution or ordinance voted on by the supervisors and failing of passage and each ordinance or resolution adopted by the supervisors shall, within twenty-four hours of such action, be transmitted to the mayor by the clerk of the board, with appropriate notation of the action of the board thereon. Any resolution acted upon by the board of supervisors by unanimous consent of those present on the date of the introduction of such resolution and any ordinance adopted by the board as an emergency measure shall be acted upon by the mayor within three days after receipt thereof by him from the clerk of the board. All other ordinances or resolutions shall be acted upon by the mayor within ten days of such receipt.

The mayor shall either approve each resolution or ordinance adopted by the supervisors by signing and returning same to the clerk of the board within the time limit, or he shall disapprove and veto any resolution or ordinance, or veto or reduce any separate appropriation item therein and shall return each such resolution or ordinance to the clerk of the board with his written objections within the time limit. His failure to make such return shall constitute approval and such ordinance or resolution shall take effect without the mayor's signed approval. The clerk of the board shall note such fact on the official copy of such resolution or ordinance. If any separate appropriation item in any resolution or ordinance is vetoed or reduced by the mayor as herein provided the remainder of any such ordinance or resolution may be approved by the mayor and, if not specifically approved by the mayor, shall take effect without such approval and shall be so noted by the clerk of the board.

In the event of any absence of the mayor for which he or the board of supervisors has failed to designate an acting mayor, no resolution or ordinance adopted by the board of supervisors shall take effect by reason of the failure of the mayor to approve, or disapprove, and return such resolution or ordinance within the time limits applicable thereto, and, in such case, the time periods or limitations as fixed by this section shall not start until an acting mayor is appointed by the mayor or elected by the supervisors, as in this charter provided, or the return of the mayor.

Any proposed resolution or ordinance voted on by the board of supervisors and failing of passage shall be reconsidered by the board on the written request of the mayor, stating his reasons therefor, filed with the clerk of the board by the mayor within ten days of the board's action on such resolution or ordinance. The board shall reconsider such measure at its convenience, but not later than thirty days after the filing of the mayor's request therefor.

2.303 Enactment over Veto

The board of supervisors may reconsider any resolution or ordinance vetoed or disapproved, or any separate appropriation item vetoed or reduced by the mayor, and if, after such reconsideration, two-thirds of all the members of the board shall vote in favor of passage thereof, it shall become effective notwithstanding the mayor's veto. If a larger vote is required for the adoption of a measure by the provisions of this charter, such larger vote shall be required to overcome the veto of the mayor. The vote of reconsideration of each such vetoed resolution, ordinance or separate appropriation item therein shall be taken at the convenience of the board. If the ordinance, resolution or separate appropriation item is not passed over the mayor's veto within thirty days, the measure or item shall be lost.

2.304 Effective Date; Final Enactment or Adoption

No ordinance which is subject to the referendum provisions of this charter shall become effective until thirty days after its passage. Ordinances granting any public utility franchise or privilege shall not become effective until sixty days after their passage. Ordinances enacted by a three-fourths vote of all members of the board as an emergency measure as defined in this section and all other ordinances not subject to the referendum provisions of this charter shall become effective upon passage.

2.304
(CA)

All ordinances, after final passage or upon their becoming effective shall be certified by the clerk of the board and recorded in a book kept for that purpose, and resolutions adopted shall be certified and recorded in like manner. Except in case of an emergency measure passed and not previously published, and except as otherwise specified in this charter, publication of ordinances and resolutions in full shall not be required after final passage. Notice that an ordinance or resolution has passed or become final shall be published once within five days of such final passage.

2.306 General Codification

Ordinances previously adopted and continuing in force may be codified or recodified or rearranged by ordinance. Any such ordinance shall supersede and repeal all general ordinances in effect prior thereto and shall be construed to be confined to a single subject.

Any such ordinance shall require publication only in bound or loose leaf book form, which shall constitute publication for all purposes. Any such publication shall contain certificates of the mayor, the clerk of the board of supervisors and the city attorney of the correctness of such codification and publication.

Any such ordinance shall be amended by an ordinance amending or repealing the particular sections thereof or adding sections thereto. For the purposes of any codification and the validity thereof, the procedure, effect, adoption or enactment and publication of any prior codification, including the enacting ordinance, amendments thereto, the contents of any such code, the certification and publication thereof and all other proceedings and matters in respect thereto, shall be deemed to be valid.

With any publication of the charter, there shall be included initiative ordinances and digests of reported court decisions relating to said charter and ordinances.

The board of supervisors shall have power to enforce by appropriate legislation the provisions of this section.

2.307 Administrative Code

The board of supervisors may enact and provide for the publication in printed form of an administrative code, which shall specify or detail the powers, duties, methods and procedure in the several departments and offices.

CHAPTER FOUR: RELATIONSHIP WITH THE EXECUTIVE BRANCH

2.400 Hearings and Inquiries

The board of supervisors

It may require such periodic or special reports of departmental costs, operation and expenditures, examine the books, papers, records and accounts of, and inquire into matters affecting the conduct of any department or office of the city and county, and for that purpose may hold hearings, subpoena witnesses, administer oaths and compel the production of books, papers, testimony and other evidence. It shall be the duty of the chief of police to designate a police officer to serve subpoenas. Any person refusing to obey such subpoena and the other requirements hereof, or to produce such books, shall be deemed in contempt and subject to proceedings and penalties as provided by general law in such instances.

2.401 Non-Interference in Administrative Affairs

Except for the purpose of inquiry, the board of supervisors shall deal with the administrative service for which the chief administrative officer is responsible, solely through such officer, and for administrative or other functions for which elective officials or boards or commissions are responsible, solely through the elective official, the board or commission or the chief executive officer of such board or commission concerned.

Neither the board of supervisors, nor its committees, nor any of its members shall dictate, suggest or interfere with appointments, promotions, compensations, disciplinary actions, contracts, requisitions for purchases or other administrative recommendations or actions of the chief administrative officer, or of department heads under the chief administrative officer, or under the respective boards and commissions. The board of supervisors shall deal with administrative matters only in the manner provided by this charter, and any dictation, suggestion or interference herein prohibited on the part of any supervisor

shall constitute official misconduct; provided, however, that nothing herein contained shall restrict the power of hearing and inquiry as provided in this charter.

The mayor shall be the chief executive officer of the city and county upon whom process issued by authority of law shall be served. He shall be an elective officer and his compensation shall be fixed in accordance with the salary standardization provisions of this charter.

The mayor shall have the power to postpone final action on any franchise that may be passed by the supervisors until such proposed franchise shall have been voted on at the next election.

He shall have power to designate a member of the board of supervisors to act as mayor in his absence. Should he fail, neglect or refuse so to do, the supervisors shall elect one of their number to act as mayor during his absence. When a vacancy occurs in the office of mayor, it shall be filled for the unexpired portion of the term by the supervisors. In case of a disaster which causes the mayor to be absent or unavailable and the supervisors for any reason whatsoever are unable to elect one of their number to act as mayor or to fill any vacancy that might occur in the office of mayor, the following persons shall act as mayor in the order of succession hereinafter designated: (1) president of the board of supervisors, (2) chairman of the finance committee of the board of supervisors, (3) senior member of the board of supervisors, who is that member having the greatest number of years of service as a member of the board, and in the event that one or more members have equal seniority then by alphabetical order of surname among such members, and (4) chief administrative officer. Said person so designated shall act as mayor during such period of absence or unavailability of the mayor until such time as the supervisors can take appropriate action either to elect an acting mayor or to fill the vacancy as the case may be. Every person who has served as mayor of the city and county, so long as he remains a resident thereof, shall have a seat in the board of supervisors and may participate in its debates, but shall not be entitled to a vote or to compensation.

In case of a public emergency involving or threatening the lives, property or welfare of the citizens, or the property of the city and county, the mayor shall have the power, and it shall be his duty, to summon, organize and direct the forces of any department in the city and county in any needed service; to summon, marshal, deputize or otherwise employ other persons, or to do whatever else he may deem necessary for the purpose of meeting the emergency. The mayor may make such studies and surveys as he may deem advisable in anticipation of any such emergency.

The mayor shall nominate members of the board of education for confirmation by the voters, and shall appoint three members of the retirement board, and shall also appoint members of the public utilities, city planning and civil service commissions, each of which said boards or commissions to have the membership, terms of members, and powers and duties as are provided in this charter.

The requisite qualifications of such appointee shall be administrative and executive ability and experience for the position to be filled.

He shall be subject to suspension and removal in the same manner as elective officers. He shall also be subject to removal by a vote of not less than two-thirds of the board of supervisors, on the basis of written charges, and, if he so request, only after a public hearing on such charges before the board of supervisors not less than five days nor more than fifteen days after the filing thereof, and prior to the date on which the supervisors shall vote on the question of his removal, but on the filing of written charges, and pending and during such hearing, the supervisors, by majority vote, may suspend him from office. The written charges and any reply thereto by the chief administrative officer shall be entered at length in the journal of the board of supervisors. The action of the board of supervisors in removing the chief administrative officer shall be final.

3.201 Functions, Powers and Duties

The chief administrative officer shall be responsible to the mayor and to the board of supervisors for the administration of all affairs of the city and county that are placed in his charge by the provisions of this charter and by ordinance, and to that end he shall have power and it shall be his duty to exercise supervision and control over all administrative departments which are under his jurisdiction; to appoint the heads of departments under his control and the members of advisory and other boards provided by this charter or by ordinance to be appointed by the chief administrative officer; to prescribe general rules and regulations for the administrative service under his control; to have a voice but no vote in the board of supervisors, with the right to report on or to discuss any matter before the said board concerning the affairs of the departments in his charge; to make such recommendations and propose such measures to the mayor, the board of supervisors, or committees thereof, concerning the affairs of the city and county in his charge as he may deem necessary; to coordinate the functioning of the several departments of the city and county charged with powers and duties relating to control of traffic; and to provide for the budgeting and control of publicity and advertising expenditures of the city and county.

3.301 General Powers and Duties

The controller shall have the powers and duties of a county auditor, except as in this charter otherwise provided. He shall be the auditor and chief accounting officer of the city and county, and shall exercise general supervision over the accounts of all officers, commissions, boards and employees of the city and county charged in any manner with the receipt, collection or disbursement of city and county funds or of other funds, in their capacity as city and county officials or employees. He shall have the power and duty of prescribing the method of installing, keeping and rendering accounts of, and the financial reports to be rendered by, the several officers, boards and employees of the city.

The controller shall keep accounts showing the financial transactions of all departments, offices and other subdivisions of the city and county. Such accounts and the accounting procedure shall be adequate to record (a) all budgeted revenues and appropriations, together with additions or transfers thereto, and to show at all times the amount of encumbrances, expenditures or transfers therefrom, and the balances therein; (b) all revenues accrued and liabilities incurred; (c) all cash receipts and disbursements; and (d), in general, all transactions affecting the acquisition, custody or disposition of values.

It shall be the duty of the controller to determine, where practicable, the unit cost of work done by the city and county for the purpose of determining whether similar work could be done under public contract at a lower cost. The controller shall devise adequate systems of internal check of all departments and offices of the city and county relative to the custody, collection or disbursement of moneys.

3.302 Controller's Reports

The controller shall annually make a complete financial report which shall be audited and distributed as provided in section 3.305 of this charter. The controller shall also make a quarterly report not later than the 25th day of the month succeeding the last preceding quarter, showing a summary statement of revenues and expenditures for the preceding quarter and for that portion of the fiscal year ending on the last day of such preceding quarter. Such statement shall include all general and funding accounts and shall be detailed as to assets, liabilities, income, expenditures, appropriations and funds, in such manner as to show the financial conditions of the city and county and of each department, office, bureau or division thereof, for that portion of the fiscal year to and including the preceding quarter, and with comparative figures for the similar period in the preceding fiscal year.

3.305

The controller shall at the same time prepare statements showing at the end of each quarter the cash position of the city and county (and the unencumbered balance in each fund). He shall also prepare quarterly for each of the several funds a summary of the resources available and estimated to be collectible, obligations authorized and estimated to be expendable, and surplus in such a manner as to show the estimated cash position of each fund at the end of the fiscal year. He shall also prepare monthly and transmit to all department heads concerned, reports showing the allowances, expenditures, encumbrances and unencumbered balances of each revenue and expenditure appropriation. A copy of each such quarterly report and special fiscal reports as requested, shall be transmitted to the mayor, the board of supervisors, the chief administrative officer, and kept on file in the controller's office.

3.303 Audits

The controller shall audit the accounts of all boards, officers and employees of the city and county charged in any manner with the custody, collection, or disbursement of funds. The controller shall audit monthly all accounts of money coming into the hands of the treasurer. He shall make an audit monthly of each departmental revolving fund authorized by this charter or by the board of supervisors.

All teachers, heads of departments, vice-principals, principals, supervisors and directors shall be classified as permanent employees in their respective positions after they have been successfully employed in such positions in the school department for a probationary period of three years. In the event said certificated employee has been paid an amount greater than such employee is entitled to receive under the provisions of the school code of the State of California, said certificated employee

1 76
shall not be paid any of his retirement benefits until the San Francisco Unified School District has been reimbursed for the said excess.

The board shall, between the 1st and 21st days of May of each year, adopt a schedule of salaries for the next ensuing fiscal year for

He shall be appointed by said board to serve for a term of four years and he shall receive an annual salary of \$10,000 unless no increase in said salary shall be fixed by the board of education and approved by the board of supervisors.

During his term of office the superintendent may be removed from his office, as in this section hereinafter provided, for misconduct or incompetency after charges setting forth the nature and character of said misconduct or incompetency are filed against the said superintendent. Said charges must be in writing and shall be signed by at least two members of the board of education. A copy of said charges, together with a notice of the time and place of the hearing on the same, shall within five days after the filing of the same be served upon the said superintendent. The mailing of a copy of said charges, with notice of time and place of hearing on the same, by United States registered mail, with the proper amount of postage prepaid thereon, addressed to said superintendent at his last known place of residence, shall be deemed to be a service of said charges as provided for in this section. A public hearing on said charges shall be had by the board of education not less than ten, nor more than twenty, days after the filing of said charges, provided that full power and authority is hereby given to the board of education to continue said hearing from time to time not to exceed sixty days from the commencement thereof, provided that for good cause said board may grant a further continuance on said hearing. The superintendent shall have the right to answer said charges, to appear at the hearing thereof and to be represented by counsel thereat for the purpose of defending himself against said charges. Pending the determination of said charges, the superintendent may be suspended from his office by a majority vote of the board of education, and the board may appoint a qualified person to discharge the duties of said superintendent during the period of suspension. If the board of education after hearing said charges shall by a two-thirds vote of all the members, determine that said charges have been sustained, it may by the same vote remove said superintendent from his office. No member of the board shall be entitled to vote on the removal of said superintendent unless he or she has been present at the entire hearing of such charges, provided that any member of the board who has not been present may vote for the removal of the superintendent, if such member has read a transcript of all the testimony taken on said hearing during his absence therefrom, and shall file with the board

an affidavit to this effect. If said charges are not sustained by a two-thirds vote of all the members of said board, or if after said charges are sustained, the superintendent is not removed from office as a result thereof, said superintendent shall be reinstated in his position and shall be allowed his salary for the time that he has been under suspension, together with the costs of defending himself against said charges, including a reasonable fee for his attorney to be fixed and allowed by the board. If the charges are sustained, and as a result thereof said superintendent is removed from office, no further salary shall be allowed to said superintendent from the date of his suspension. In the hearing and determination of said charges filed against said superintendent, the judgment of said board of education shall be final unless in determining the sufficiency of said charges said board of education commits a clear abuse of discretion.

1 27
The superintendent shall have the powers and duties specified by this charter for department heads, in addition to such powers and duties as are fixed by general law.

The positions of superintendent and assistant superintendents shall be held by persons of college training, but shall not be subject to the provisions of this charter prescribing a residence requirement for officers of the district; provided however, that during their incumbency persons appointed to such positions shall reside in the city and county, and in case any appointee shall fail so to do, his appointment shall be void as declared by the board.

The superintendent may appoint a confidential secretary who shall hold office at his pleasure.

The board of supervisors shall on the date of its meeting, not less than five days after publication in the official gazette, provide for consideration of and public hearing on the proposed budget and proposed appropriation ordinance.

The board of supervisors may decrease or reject any item contained in the proposed budget, but shall not increase any amount or add any item for personal services or materials, supplies, or contractual services, for any department, unless requested in writing so to do by the mayor, on the recommendation of the chief administrative officer, board, commission or elective officer, in charge of such department.

The board of supervisors may increase or insert appropriations for capital expenditures and public improvements, but shall do so only after such items have first been referred to the department of city planning and a report has been rendered thereon regarding conformity with the master plan. It shall be the duty of the department of city planning to render its reports in writing within thirty days after said referral. Failure of the department of city planning to render any such report in such time shall be deemed equivalent to a report.

The budget estimates of expenditures for any utility, within the estimated revenues of such utility, shall not be increased by the board of supervisors.

In the event the public utilities commission and the mayor shall propose a budget for any utility which will exceed the estimated revenue of such utility, it shall require a vote of two-thirds of all members of the board of supervisors to approve

such budget estimate and to appropriate the funds necessary to provide for the deficiency.

Such budget of expenditures in excess of estimated revenues may be approved to provide for and include proposed expenditures for additions, betterments, extensions or other capital costs, in amount not to exceed three-quarters of one cent (\$.0075) on each one hundred dollars (\$100) valuation of property assessed in and subject to taxation by the city and county, provided that whenever tax support is required for additions, betterments, extensions or other capital costs the total provision for such purposes shall not exceed an amount equivalent to three-quarters of one cent (\$.0075) on each one hundred dollars (\$100) valuation of property subject to taxation by the city and county and provided further that proposed expenditures for additions, betterments, extensions or other capital costs in excess thereof shall require financing by authorization and sale of bonds. This section shall have precedence over section 6.407 (a) of this charter and any other section deemed in conflict herewith.

After public hearing, and not earlier than the 15th day of May, nor later than the 1st day of June, the board shall adopt the proposed budget as submitted or as amended and shall pass the necessary appropriation ordinance. If the appropriation ordinance as submitted by the mayor is amended by the supervisors, the appropriation ordinance shall be readvertised prior to final reading or passage, in the manner required for ordinances.

Any item in an appropriation ordinance, except for bond interest, redemption or other fixed charges, may be vetoed in whole or in part by the mayor within ten days of receipt by him from the clerk of the board of supervisors of the ordinance as passed by the board, and the board of supervisors shall act on such veto not later than the 20th day of June.

to section 6.20
of this charter

6.207 Annual Salary Ordinance

The number and rates of compensation for all positions continued or created by the supervisors in adopting each annual budget, and each annual or supplemental appropriation ordinance, shall be established and enumerated in an ordinance continuing and creating positions in city and county departments and offices, and providing the rates of compensation therefor, which ordinance shall be passed or amended at the same time as the annual or supplemental appropriation ordinance is passed. Such ordinance shall be subdivided for each department or office and each organization subdivision thereof. The number of positions enumerated therein shall be segregated by classes according to the civil service classification of employments and the positions in any department or office under any such class shall not be listed individually or subdivided, except where necessary to show varying rates of pay for employments included in any such class. Rates of compensation enumerated shall be those established by salary standardization schedules, and shall not be listed for individuals or individual positions, except where the compensation of incumbents is higher than the rate fixed by salary standardization, which compensation shall not be reduced so long as the incumbents legally hold such positions. Notwithstanding the provisions of Section 2.300 of this charter with respect to amendment of sections of ordinances any change in the number of positions allowed for any department or office, and seniority or other compensation increases authorized as provided elsewhere in this charter for officers or employees, may be covered by amendment of the appropriate item or items of the ordinance herein referred to. The said ordinance shall constitute the legal basis for check by the civil service commission or the controller as to the legality of the creation of any position in the city and county service and the rate of compensation fixed therefor.

6.208 Tax Levy

On or before the 15th day of September of each year, the board of supervisors by ordinance shall levy a tax, the estimated proceeds of which, together with the total amount of receipts and revenues estimated to be received from all sources, will be sufficient to meet all appropriations made by the annual appropriation ordinance.

6.300 Effect of Appropriation Ordinance

Subject to the provisions of section 6.301, the several amounts of estimated revenue and proposed expenditures contained in the annual appropriation ordinance adopted by the board of supervisors shall be and become appropriated for the ensuing fiscal year to and for the several departments, bureaus, offices, utilities, boards or commissions, and for the purposes specified, and each department for which an expenditure appropriation has been made shall be authorized to use the money so appropriated for the purposes specified in the appropriation ordinance, and within the limits of the appropriation. The appropriation ordinance shall constitute the authority for the controller to set up the required revenue and expenditure accounts. Appropriation items for bond interest, bond redemption, fixed charges and other purposes not appropriated to a specific department shall be subject to the administration of and expenditure by the chief administrative officer for the respective purposes for which such appropriations are made.

6.301 Allotments

The several items of expenditure appropriated in each annual appropriation ordinance, being based on estimated receipts, income or revenues which may not be fully realized, it shall be incumbent upon the controller to establish a schedule of allotments, monthly or quarterly as he may determine, under which the sums appropriated to the several departments shall be expended. The controller shall revise such revenue estimates monthly. If such revised estimates indicate a shortage the controller shall hold in reserve an equivalent amount of the corresponding expenditure appropriations set forth in any said annual appropriation ordinance until the collection of the amount as originally estimated is assured, and in all cases where it is provided by this charter that a specified or minimum tax shall be levied for any department the amount of the appropriation in any annual appropriation ordinance derived from taxes shall not exceed the amount actually produced by the levy made for said department. The controller in issuing warrants or in certifying contracts or purchase orders or other encumbrances, pursuant to section 6.302 of this charter, shall consider only the allotted portions of appropriation items to be available for encumbrance or expenditure and shall not approve the incurring of liability under any allotment in excess of the amount of such allotment. In case of emergency or unusual circumstance which could not be anticipated at the time of apportionment, an additional allotment for a period may be made on the recommendation of the department head and that of the chief administrative officer, board or commission and the approval of the controller. After the allotment schedule has been established or fixed, as heretofore provided, it shall be unlawful for any department or officer to expend or cause to be expended a sum greater than the amount set forth for the particular activity in the said allotment schedule so established unless an additional allotment is made, as herein provided.

6.302

6.302 Encumbrances

Accounts shall be kept by the controller showing the amount of each class or item of revenue as estimated and appropriated in the annual appropriation ordinance, and the amounts collected. Accounts shall also be kept by the controller of each expense appropriation item authorized by the board of supervisors. Every warrant on the treasury shall state specifically by title and number the appropriation item against which such warrant is drawn.

Each such revenue and expense account shall show in detail the amount of the appropriation or appropriations made therefor by the supervisors, the amount drawn thereon, the amount of encumbrance for purchase orders, contracts or other obligations theretofore certified by the controller as against it, and the unencumbered balance to the credit thereof. This balance shall be the "unencumbered balance" as this term is used in this charter.

No obligation involving the expenditure of money shall be incurred or authorized by any officer, employee, board or commission of the city and county unless the controller first certify that there is a valid appropriation from which the expenditure may be made, and that sufficient unencumbered funds are available in the treasury to the credit of such appropriation to pay the amount of such expenditure when it becomes due and payable.

Each such certification shall be immediately recorded by the controller. Each sum so recorded shall be an encumbrance for the purpose certified until such obligation is fulfilled, cancelled or discharged, or until the ordinance or resolution is repealed by the board of supervisors.

6.303 Disbursements

No money shall be drawn from the treasury of the city and county, nor shall any obligation for the expenditure of any money be incurred except in pursuance of appropriations or transfers made as in this charter provided

All warrants shall be drawn by the controller, in payment of claims, prepared and signed by the responsible official, for services, supplies and other obligations against the city and county, supported by proper invoices, bills and other necessary data.

The controller shall audit such claims. If he finds the same to be correct and proper in all particulars, and clearly within the purposes for which the appropriation item to which it is charged was made, and that there is an adequate balance in such appropriation item to meet the payment, he shall draw and approve the warrant therefor.

If all or any portion of the claim is not correct, or if all proceedings required incidental to such payment have not been followed, the controller may approve such part of such claim as he shall find correct and draw the warrant therefor, or he may return the claim to the department concerned with his disapproval.

Prior to his drawing any warrant therefor, the controller may, in addition to any other inspection required by any other official, make such investigation and inspection as he deems necessary as to the quality, quantity and condition of services, material, supplies or equipment received by any officer or department for which payment is to be made by such warrant. If, in his opinion, any claim is not legal, he shall withhold approval of the same and

immediately return such claim, together with a statement of his action thereon and reason therefor, to the responsible official, or transmit the same to the mayor for instructions. No warrant shall be drawn in payment of a claim against a fund in which there is an insufficient unencumbered balance for the payment thereof. Such claims, if legal, shall be registered by the controller in the order of receipt by him, and shall be paid in such order as moneys to cover the same become available in the proper fund.

The board of supervisors, by annual tax levy, may gradually build up the cash reserve fund authorized and created by the provisions of section 6.304 of this charter. Said fund shall be used exclusively (1) for the payment in any fiscal year of legally budgeted expenditures for such year in anticipation of the collection, after the close of such fiscal year, of legally collectible taxes and other revenues, as set forth in the budget and the appropriation ordinance for such fiscal year, and (2) for paying that portion of the authorized expenses of the city and county for any fiscal year, which, as certified to said board by the controller, becomes due and payable and must be paid prior to the receipt of tax payments for such fiscal year; provided, that such cash reserve fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount of estimated revenues and receipts from sources other than tax rate revenues.

In the event that funds are not available in such a cash reserve fund to meet authorized expenditures of any fiscal year, the board of supervisors, on the recommendation of the controller and the mayor, and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that the temporarily idle balances be transferred or loaned may, by ordinance, authorize the treasurer to make temporary transfers or loans for specified periods of idle unencumbered balances in any fund in his custody, except a pension fund, at not less than the then current rate of interest paid by the banks to the city and county on city and county funds deposited with such banks. Such approval by the officer, board or commission concerned shall specify that the amount proposed to be transferred or loaned from such fund will not be needed for the purpose of such fund prior to the date specified for its return. The fund from which such transfer or loan is made shall be charged or encumbered with the amount of such transfer or loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance for which any expenditures or payments must be made prior to the date on which the transfer or loan is repaid. Any transfer or loan made as herein authorized during the first half of any fiscal year shall be repaid prior to the 1st day of January of said year, and any transfer or loan made during the remaining one-half of said fiscal year shall

be repaid prior to the 15th day of May of said year. Such loans shall be secured by and made solely in anticipation of the collection of taxes levied or to be levied for the current fiscal year, and such loans shall constitute the first demand on and shall be repaid from the first tax collections for such current fiscal year; provided, however, that tax anticipation loans made as hereinafter in this section authorized, shall constitute a prior lien on said taxes levied or to be levied or collected.

When funds shall be needed for the immediate requirements of the city and county in any fiscal year in accordance with appropriations made as authorized by this charter for such fiscal year, which payments may be made in advance of the receipt of income from such fiscal year, and when funds therefor cannot be made available as hereinbefore in this section authorized, the board of supervisors on the recommendation of the controller and the approval of such recommendation by the mayor, shall have power to borrow money on notes or other evidences of indebtedness on behalf of the city and county. Said power shall be exercised by ordinance or ordinances authorizing the borrowing of said money and the execution of said notes or other evidences of indebtedness. The aggregate amount of such notes or other evidences of indebtedness outstanding and unpaid at any one time during any part of the fiscal year in which said borrowing is made shall not be in excess of 25 per cent of the estimated aggregate amount of all

taxes actually levied for such fiscal year. All such notes or other evidences of indebtedness shall be offered at public sale by the board of supervisors after not less than two days of advertising, not less than three days after the last day on which such advertising is published. Each such sale shall be made to the bidder offering the lowest rate of interest or whose bid represents the lowest net cost to the city and county; provided, however, that the rate of interest to be paid shall not exceed the sum of six (6) per centum per annum, and full authority is hereby given to said board of supervisors to fix, by resolution, the rate of interest on said notes or other evidences of indebtedness and the times and places where the principal sum of said notes or other evidences of indebtedness shall be paid. The principal amount of said notes or other evidences of indebtedness together with the interest thereon, issued and delivered under authority of this section shall be payable exclusively out of the taxes levied and collected by said city and county for the fiscal year during which the same are issued, and shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which said money shall be borrowed and shall be repaid from the first moneys received from said taxes; and the amount of taxes so levied and collected shall be applied to the payment of said notes or other evidences of indebtedness before any part thereof is used for any other purpose; provided, however, that taxes levied for the payment of principal of, or interest on, any bonded indebtedness of said city and county now outstanding or hereafter created shall be applied to the purpose for which such taxes were levied, unless the money borrowed by such notes or other evidences of indebtedness issued

1 89

against such tax levies is in fact applied to the payment of the principal and interest of such bonded indebtedness. If at the time said notes or other evidences of indebtedness, or any of them, become due and payable the funds in the city treasury available for the payment thereof shall be insufficient for the payment in full of all of said notes or other evidences of indebtedness then outstanding such funds shall be applied pro rata to the payment of the principal and interest of all of the notes or other evidences of indebtedness then issued and outstanding without preference or priority of any one note over any other by reason of prior issuance, or otherwise. Any of said notes or other evidences of indebtedness not paid prior to June 30 of the fiscal year during which

the same are issued shall, nevertheless, be paid out of moneys received from the taxes of the said fiscal year, irrespective of the date of the receipt thereof, it being the intent and purpose of this section to provide for the payment of all notes or other evidences of indebtedness issued under authority of this section out of the taxes levied for the fiscal year during which said notes or other evidences of indebtedness are issued irrespective of the actual date of the collection of said taxes.

The board of supervisors shall have full power and authority to provide for the form of all notes or other evidences of indebtedness issued by authority of this section, as well as to fix the time and place for the payment of both the principal amount of said notes or other evidences of indebtedness and the interest to become due thereon; provided that all notes or other evidences of indebtedness issued for money borrowed during the first half of any fiscal year shall be payable not later than December 31 of said year; and all notes or other evidences of indebtedness issued for money borrowed during the second half of any fiscal year shall be payable not later than May 15 of such year, it being the intent and purpose of this section that the borrowing of money under authority hereof shall be solely for the purpose of anticipating receipt of income. The mayor, in preparing the consolidated budget estimate as provided by this charter, shall include therein a separate amount sufficient to meet the interest to be paid on any moneys borrowed under authority of this section.

Upon written recommendation of the chief administrative officer, or board or commission for the use of which funds have been appropriated, and the approval of the mayor, the board of supervisors may transfer an unencumbered balance, or part thereof, of an appropriation made for the use of one department, to another. No such transfer shall be made of utility, bond, school, pension or trust funds, except by way of loans as in this charter provided. On request of a department head and approval by the chief administrative officer, board or commission, respectively, and on the authorization of the controller, funds appropriated for a specific purpose of such department which become surplus may be transferred and used for another specific purpose within the department; provided, however, that such surplus shall not be transferred to a capital improvement project unless such project shall have been previously approved in accordance with the provisions of sections ~~3.527, 6.202, 6.203 or 6.205~~ of this charter. The controller shall prescribe the method to be used in making payments for inter-departmental services

6.306 Cash Reserve Fund and Supplemental Appropriations

Unused and unencumbered appropriations or unencumbered balances existing at the close of any fiscal year in revenue or expense appropriations of the city and county for any such fiscal year, including such balances in revenue and expense appropriations provided under the provisions of section ~~6.400 (a)~~ of this charter for libraries, parks and squares, playgrounds and civil service in any such fiscal year, but exclusive of revenue or money required by law to be held in school, bond, bond interest, bond redemption, pension, trust, utility or other specific funds, or to be devoted exclusively to specified purposes other than annual appropriations, and together with revenues collected or accruing from any source during any such fiscal year, in excess of the estimated revenue from such source as shown by the annual budget and the appropriation ordinance for such fiscal year, shall be transferred by the controller, at the closing of such fiscal year, to a "cash reserve fund" which is hereby created and which may be used only in the manner authorized by section ~~6.304~~ of this charter; provided, however, that when the balance in said cash reserve fund shall equal ten (10) per centum of the current or the last preceding tax levy no such transfer shall be made by the controller except on the recommendation of said controller, the approval of the mayor and the authorization of the board of supervisors, by majority vote.

Such unused and unencumbered appropriations, balance and revenue collections in excess of revenue estimates, as hereinbefore in this section defined, when not transferred to the cash reserve fund as hereinbefore in this section required or authorized, shall be held as surplus.

21

Such surplus shall be taken into account as revenue of the ensuing fiscal year; provided, however, that any such surplus created or existing in any CA
fiscally ~~year~~ appropriated by the board of supervisors at the last meeting of such board in any month, by means of an ordinance designated as a supplemental appropriation ordinance, on the recommendation of the chief administrative officer, or any board, commission or elective officer, respectively, and the approval and submission by the mayor of a supplemental budget estimate or request, in the same manner and subject to the same conditions, except time, as provided in this charter for the submission and approval of the annual budget and the appropriation ordinance.

No ordinance or resolution for the expenditure of money, except the annual appropriation ordinance, shall be passed by the board of supervisors unless the controller first certifies to such board that there is a sufficient unencumbered balance in a fund that may legally be used for such proposed expenditure, and that, in the judgment of the controller, revenues as anticipated in the appropriation ordinance for such fiscal year and properly applicable to meet such proposed expenditure will be available in the treasury in sufficient amount to meet the same as it becomes due.

6.307 Emergency Reserve Fund

The tax rate may be fixed by the board of supervisors so as to produce, by a specifically designated rate, as recommended by the mayor in any proposed annual budget and the appropriation ordinance therefor, an amount necessary for an emergency reserve fund, which fund is hereby created, for the purposes of meeting any emergency as defined in sections 2.301 or 3.100 of this charter. Appropriations from such emergency reserve fund shall be made only on the recommendation of the department head concerned, the approval of the chief administrative officer or the board or commission in charge of such department, the recommendation of the mayor to the board of supervisors that such appropriation be made, and the vote of three-fourths of the board of supervisors.

The balance in said emergency reserve fund at the end of any fiscal year shall be maintained and carried forward in said fund. The annual appropriation for said fund and the annual tax rate therefor shall not exceed one per centum of the amount of the levy required to meet all other expense appropriations unless and until the accumulated and unencumbered balance in said fund shall amount to a sum not to exceed three per centum of the tax levy required to meet all other expense appropriations in the then current fiscal year. The board of supervisors, on the recommendation of the mayor, may make appropriations to and may levy taxes for said emergency reserve fund in excess of said three per centum of the tax levy for all other purposes

(f) An amount which shall be sufficient to meet the cost of reconstruction and replacement made necessary by the physical and functional depreciation of any of the properties or equipment of said harbor as the same shall occur;

(g) To pay for extension and betterments to said harbor or to the equipment and facilities thereof;

(h) To establish a surplus or sinking fund for the improvement or extension of the harbor or any facility used in connection therewith.

Subject to the provisions of Statute 1968, ch. 1333,

6.407 Utility Revenues and Expenditures

(a) Receipts from each utility operated by the public utilities commission shall be paid into the city and county treasury and maintained in a separate fund for each such utility. Appropriations from such funds shall be made for the following purposes for each such utility in the order named, viz: (1) for the payment of operating expenses, pension charges, and proportionate payments to such compensation and other insurance and accident reserve funds as the commission may establish or the board of supervisors may require; (2) for repairs and maintenance; (3) for reconstruction and replacements as hereinafter described; (4) for the payment of interest and sinking funds on the bonds issued for acquisition, construction or extensions; (5) for extensions and improvements, and (6) for a surplus fund.

(b) The salaries and general expenses of the commission or bureaus thereof not chargeable to a specific utility shall be apportioned fairly among the utilities under the control of the commission in such manner as the commission may deem appropriate, and such apportionment shall be shown as expenses of such utilities.

For the purpose of computing net income, the commission, on the basis of an appraisal of the estimated life and the then current depreciated value of the several classes of property in each utility, shall determine the amount of reasonable annual depreciation for each utility. During the fiscal year 1937-1938 and at least every five years thereafter, the commission shall make an appraisal or may revise the last preceding appraisal of the value and probable useful life of each of the several classes of property of each utility, and shall, on the basis of said appraisal, redetermine the amount of the reasonable annual depreciation for each utility.

commission

- (d) For the purpose of providing funds for reconstruction and replacements due to physical and functional depreciation of each of the utilities under the jurisdiction of the commission, the commission must create and maintain a reconstruction and replacement fund for each such utility, sufficient for the purposes mentioned in this section, and in accordance with an established practice for utilities of similar character, which shall be the basis for the amount necessary to be appropriated annually to provide for said reconstruction and replacements.
- (e) If any accumulation in the surplus fund of any utility shall, in any fiscal year, exceed twenty-five per cent of the total expenditures of such utility for operation, repairs and maintenance for the preceding fiscal year, such excess may be transferred by the board of supervisors to the general fund of the city and county, and such amount shall be deposited with the treasurer to the credit of such general fund.
- (f) Any budget of expenditures for any public utility in excess of estimated revenues may be approved to provide for and include proposed expenditures for additions, betterments, extensions or other capital costs, in amount not to exceed three-quarters of one cent (\$.0075) on each one hundred dollars (\$100) valuation of property assessed in and subject to taxation by the city and county, provided that whenever tax support is required for additions, betterments, extensions or other capital costs the total provision for such purposes shall not exceed an amount equivalent to three-quarters of one cent (\$.0075) on each one hundred dollars (\$100) valuation of property subject to taxation by the city and county and provided further that proposed expenditures for additions, betterments, extensions or other capital costs in excess thereof shall require financing by authorization and sale of bonds. This section shall have precedence over section 6.205 of this charter and any other section deemed in conflict herewith.

6.408 Airports Revenue Fund

(a) Subject to the budget and fiscal provisions of this charter: (1) The entire gross revenue of the airport commission shall be set aside and deposited into a fund in the city and county treasury to be known as the "Airports Revenue Fund." All amounts paid into said fund shall be maintained by the treasurer separate and apart from all other city and county funds and shall be secured by his official bond or bonds. Said fund shall be exempt from section 129 of this charter.

(2) Separate accounts shall be kept with respect to receipts and disbursements of each airport under the jurisdiction of the commission.

(b) Moneys in the Airports Revenue Fund including earnings thereon shall be appropriated, transferred, expended or used for the following purposes pertaining to the financing, maintenance and operation of airports and related facilities owned, operated or controlled by the commission and only in accordance with the following priority: (1) the payment of operation and maintenance expenses for such airports or related facilities; (2) the payment of pension charges and proportionate payments to such compensation and other insurance or outside reserve funds as the commission may establish or the board of supervisors may require with respect to employees of the commission; (3) the payment of principal, inter-

6.409 Expenditures of the Proceeds from the Sale of Property

The proceeds of the sale of any property under the control of a department shall be applied by the supervisors to the purchase of additional land for the use of such department if required there-

by. Otherwise such proceeds shall be applied to the purchase of additional real property for any city and county purpose, or, if not required therefor, may be appropriated by the board of supervisors for capital improvements; provided, however, that the proceeds of the sale of any property acquired for the use of any utility, bond, special or trust fund shall revert to the related utility, bond, special or trust fund. ~ ~

6.410 Limitation on Special Assessments

Special assessments shall not exceed fifty per cent of the assessed value of the land on which the special assessment is levied, except that when such assessments are authorized to be paid in installments over a period not to exceed ten years, no annual installment payment shall exceed twenty-five per cent of the assessed value of the land on which the special assessment is levied.

6.411 Admission Fees to California Academy of Sciences Building

Subject to the approval of the Board of Supervisors, reasonable and appropriate charges may be made by the California Academy of Sciences for admission to or use of the buildings or improvements erected by or under the authority of the California Academy of Sciences in or on property owned or controlled by the city and county.

Notwithstanding any of the provisions of this charter, the board of supervisors shall have the power to enact an ordinance that will be in accordance with the provisions of Part 1.5 of Division 2 of the Revenue and Taxation Code of the State of California and any amendments thereto, insofar as said Part 1.5 of Division 2, as amended, provides for uniform local sales and use taxes, and it may enact such other ordinances and authorize the execution of such agreements as may be necessary or convenient to insure the imposition and collection of such taxes.

ARTICLE VII. SPECIAL PROVISIONS

7 77

CHAPTER ONE: PURCHASE OF MATERIALS, SUPPLIES AND EQUIPMENT

7.100 Material, Supplies and Equipment

The purchaser of supplies shall purchase all materials, supplies and equipment of every kind and nature, and enter into agreements for all contractual services required by the several departments and offices of the city and county, except as in this section otherwise provided. Purchases of books, magazines and periodicals for the library departments, works of art for museums and other articles or things of unusual character as to the purchasing thereof, may, on the recommendation of a department head and the approval of the purchaser, be purchased directly by said department head.

Purchases for construction operations, or for any operations conducted outside the boundaries of the city and county may, on the recommendation of the department head in charge thereof and the approval of the purchaser of supplies, be made by the department head. All such purchases made by officials of departments other than the purchasing department shall be made in accordance with regulations established by the purchaser of supplies. The purchaser of supplies shall have authority to exchange used materials, supplies, and equipment to the advantage of the city and county, advertise for bids, and to sell personal property belonging to the city and county on the recommendation of a department head that such articles are unfit for use.

All purchases shall be by written purchase order or written contract. All purchases in excess of one thousand dollars (\$1,000) shall be by written contract, provided, however, that on the recommendation of the department head, in case of an emergency actually existing, the purchaser of supplies, with the approval of the chief administrative officer, may make such purchases in the open market on the basis of informal bids. At least three bids or quotations shall be secured on open market purchases and a permanent record of all such quotations shall be kept. All contracts and purchase orders in excess of two thousand dollars (\$2,000) for material, supplies or equipment shall require the signature of the chief administrative officer in addition to the signature of the purchaser of supplies. The purchaser of supplies shall not enter into any contract or issue any purchase order unless the controller

shall certify thereon that sufficient unencumbered balances are available in the proper fund to pay the payments under such purchase order or contract as these become due.

The purchaser of supplies shall establish specifications and tests to cover all recurring purchases of material, supplies and equipment. He shall, as far as is practicable, standardize materials, supplies and equipment according to the use to which they are to be put, when two or more types, brands or kinds are specified or requested by individual departments.

Purchases of equipment shall be made in accordance with specifications furnished by the department requiring such equipment in case the use of such equipment is peculiar to said department. For patented or proprietary articles sold by brand name, the purchaser may require each department requisitioning same by such brand name, to furnish specifications of the article requisitioned and may advertise for bids on the basis of such specifications, under conditions permitting manufacturers of or dealers in other articles made and sold for the same purpose to bid on such specifications or on the specifications of their own product. If the purchaser of supplies recommends the acceptance of the lowest or best bid, stating his reasons in writing therefor, and if the department head concerned recommends the acceptance of any other bid on such proprietary articles, stating his reasons in writing therefor, the award shall be determined by the controller.

The purchaser of supplies shall require departments to make adequate inspection of all purchases, and shall make such other inspection as he deems necessary. He shall direct the rejection of all articles which may be below standards, specifications or samples furnished. He shall not approve any bill or voucher for articles not in conformity with specifications, or which are at variance with any contract.

He shall have charge of central storerooms and warehouses of the city and county. He shall also have charge of a central garage and shop for the repair of city and county equipment. All garages and shops heretofore maintained by departments for the construction, maintenance, and repair of departmental supplies and equipment, and the personnel assigned thereto, excepting the shop and personnel for fire alarm, police telegraph and traffic signal manufacture and repair operated by the department of electricity, are hereby transferred to said central garage and shop.

He shall, under the supervision of the controller, maintain an inventory of all material, supplies and equipment purchased for and in use in all departments and offices of the city and county. He shall be responsible for the periodic check of such property, and in case of loss or damage deemed by him to be due to negligence, he shall report thereon to the mayor, the chief administrative officer and the controller. He shall have authority to require the transfer of surplus property in any department to stores or to other departments.

7.101 Surplus Commodities

Notwithstanding any other provision of the charter, the purchaser of supplies, with the approval of the chief administrative officer, may purchase any commodity either from the government of the United States or from the State of California without advertising for bids for said commodity, irrespective as to the cost thereof, and no written contract need be entered into with the government of the United States or with the State of California for the purchase of said commodity. Before any such purchase is made the controller shall certify as to the availability of funds to pay the purchase price of said commodity.

7.102 Monetary Functions

The board of supervisors shall by ordinance determine the monetary limits of purchases of materials, supplies and equipment to be made (a) by the taking of informal bids consistent with the manner provided in Section 7.100; and (b) by advertising for bids consistent with the manner provided for in Section 7.200.

They shall also provide by ordinance for the monetary limits within which procurements of materials, supplies and equipment may be made from departmental revolving funds. The purchaser of supplies shall by rules and regulations, approved by the chief administrative officer and the controller, establish the methods whereby procurements may be made from departmental revolving funds.

7.103 Requisition, Contract and Payment

All purchase orders and contracts shall be based on written requisitions, or, for materials or supplies in common use in the various departments, on the purchaser's records of average use by all departments, when approved by the chief administrative officer. The purchaser of supplies shall approve all bills or vouchers for materials, supplies, equipment, and contractual services before the controller shall draw and approve warrants therefor. All contracts for the purchase of materials, supplies and equipment shall be made after inviting sealed bids by publication. All sealed bids received shall be kept on file. When an award of contract is made, notice that the same has been made shall be given by one publication, and any interested person may examine the bids and records at the purchaser's office.

7.104 Purchaser's Revolving Fund

Appropriations for material, supplies, and equipment shall be segregated in each annual appropriation ordinance for each department or office. Any part of each such fund or appropriation may, on the recommendation of the purchaser of supplies and the approval of the controller, be transferred to or made available in the purchaser's revolving fund. Warrants shall be drawn against such fund by the controller on demand of the purchaser for the payment of bills on which discount for prompt payment may be secured, or for advantageous cash purchasing, under favorable or emergency market conditions, of materials or supplies for future departmental requisition and use. Discounts obtained by the use of the purchaser's revolving fund may be accumulated therein and the supervisors may make annual appropriations to such fund until a sufficient sum, as determined by the controller, is accumulated to meet the average purchasing and discount payment requirements of the city and county.

CHAPTER TWO: CONSTRUCTION OR REPAIR OF PUBLIC WORKS OR IMPROVEMENTS
7.200 Public Works and Purchasing Contracts

The construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements, and the purchasing of supplies, materials and equipment, and the expenditure involved in each shall be subject to the sum of the cost of the work or improvement shall not exceed the amount provided by this charter. No officer shall be permitted to split or divide any public work or improvement or purchase into two or more units for the purpose of evading the provisions of this section. In an emergency, provided an emergency is declared by the board of supervisors to exist, and when authorized by resolution of said board, any public work or improvement may be executed in the most expeditious manner. Notwithstanding any other provision in this section or this charter contained, upon the approval of the chief administrative officer declaring the work to be emergency in character, there may be expended by the department of public works the sum not to exceed five hundred dollars (\$500) for new construction of any type in or upon unimproved or unaccepted streets.

Any public work or improvement estimated to cost less than two thousand dollars (\$2,000) may be performed under contract or written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county. Any public work or improvement executed by the city, other than routine repair work, shall be authorized by the chief administrative officer or by the heads of departments not under the chief administrative officer, only after detailed estimates have been prepared and submitted by the head of the department concerned. There shall be separate accounting for each work or improvement so executed, which accounting shall include all direct, indirect and supervisory elements of cost chargeable to such work or improvement, and each cost accounting shall be reported to the chief administrative officer, or to the mayor when such work shall have been performed by departments not under the chief administrative officer. All such accounts shall be reported to the controller. Any public work or improvement

of

1-104 A

costing less than two thousand dollars (\$2,000) and not performed by the use of city and county labor, materials, and supplies shall, if not performed under contract, be covered by written order or agreement which shall be based on not less than three bids, and the order or agreement shall be given by the department. The lowest of such bids shall be kept by the department.

When the expenditure for any public work or improvement shall exceed the sum of two thousand dollars (\$2,000), the work shall be done by contract, except as otherwise provided in this charter. The head of the department in charge of or responsible for the work for which a contract is to be let, or the purchaser of supplies in the case of purchases of materials, supplies and equipment, shall let such contract to the lowest reliable and responsible bidder not less than ten days after advertising by publication for two consecutive days for sealed proposals for the work, improvement or purchase contemplated. Each such advertisement shall contain the reservation of the right to reject any and all bids. The officer responsible for the awarding of any such contract shall require from all bidders information concerning their experience and financial qualifications, as provided by general law relative to such investigations authorized by departments of public works.

The purchaser of supplies with the approval of the chief administrative officer, or the department head concerned, with the approval of the board or commission to which he is responsible, may reject any and all bids and readvertise for bids.

The department head or the purchaser of supplies, as the case may be, shall have power to sign such contract for the estimated expenditures thereunder not in excess of two thousand dollars (\$2,000). Any contract involving the expenditure of over two thousand dollars (\$2,000), if for the purchase of materials, supplies or equipment, shall require the joint approval of the purchaser of supplies and the chief administrative officer. If such contract is for any public work or improvement, it shall require the joint approval of the department head and the chief administrative officer relative to departments under his jurisdiction, or the signature of the department head and the approval by resolution of the board or commission concerned for departments not under the chief administrative officer.

The board of supervisors, by ordinance, shall establish procedure whereby appropriate city and county departments may

file sealed bids for the execution of any work to be performed under contract. If such bid is the lowest, the contract shall be awarded to the department. Accurate unit costs shall be kept of all direct and indirect charges incurred by the department under any such contract, which unit costs shall be reported to and audited by the controller monthly and on the completion of the work.

In any case where the lowest gross price or unit cost bid is not accepted, and a contract is entered into with another bidder, written report shall be made to the chief administrative officer, the mayor and the controller by the officer authorized to execute the contract, with the reasons for failure to accept such lowest bid.

If any provision of this section is in conflict with any provision of section 7.100 of the charter, the provision contained in section 7.100 shall govern and control.

7.201 Public Works Contract Procedure by Ordinance

Notwithstanding any other provision of this Charter, and in particular the provisions of Section 7.100, the board of supervisors shall by ordinance determine the monetary limits not to exceed five thousand dollars (\$5,000), within which the construction, reconstruction or repair of public buildings, streets, utilities or other public works or improvements may be done by contract or by written order or by the employment of the necessary labor and purchase of the necessary materials and supplies directly by the city and county, consistent, save as to monetary limits, with the manner provided for in Section 7.100 and Section 7.105.

7.202 Progressive Payments

Any contract may provide for progressive payments, if the advertisement for sealed proposals shall so specify. No progressive payments under any contract shall be made which, with prior payments, shall at any time exceed in amount ninety per cent of the value of the work and labor and materials furnished, and no contract shall authorize or permit the payment of more than ninety per cent of the total contract price before the completion of the work required by such contract and the acceptance thereof by the head of the department concerned.

7.203 Penalties and Extras

If so specified in the published notice soliciting sealed bids for any public work or improvement, any contract therefor may be let for a gross price or on a basis of cost per unit of work to be performed, and may also provide for liquidated damages to the city and county for every day during which the contract is uncompleted beyond such specified date. In awarding any contract, the department head concerned is authorized to compare bids on the basis of time of completion. When any award of contract has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the time within which the contractor shall start work shall be fixed and the performance within such time limits shall be covered by the bond required of the contractor, and no extension may be granted on such contract beyond the date specified for completion, unless the liquidated damages for each day the work is uncompleted beyond the specified date shall be collected; provided, however, that this shall not apply to unavoidable delays due to act of God.

If it becomes necessary, in the prosecution of any work or improvement under contract, to make alterations or modifications, or provide for extras in such contract which shall increase the contract cost, such alterations, modifications or extras shall be made only on the written recommendation of the department head responsible for the supervision of the contract, together with the approval of the chief administrative officer or the board or commission, as the case may be, and also the approval of the controller. No such alteration, modification or extra shall be valid, unless the increased price to be paid under the altered or modified contract shall have been agreed upon in writing and signed by the contractor and the department head concerned, and approved as hereinbefore provided. In the performance of any contract awarded on the unit and the unit-cost basis, if the department head concerned ascertains that the amount of work done or to be done shall exceed the estimated amount of the contract by ten per cent, or more, the excess shall be provided for as prescribed by section relative to supplemental appropriations.

67306

7.204 Contractors Working Conditions

Every contract for any public work or improvement to be performed at the expense of the city and county, or paid out of moneys deposited in the treasury, whether such work is to be done directly under contract awarded, or indirectly by or under sub-contract, sub-partnership, day labor, station work, piece work, or any other arrangement whatsoever, must provide: (1) That in the performance of the contract and all work thereunder, eight hours shall be the maximum hours of labor on any calendar day; (2) that any person performing labor thereunder shall be paid not less than the highest general prevailing rate of wages in private employment for similar work; (3) that any person performing labor in the execution of the contract shall be a citizen of the United States; (4) that all laborers employed in the execution of any contract within the limits of the city and county shall have been residents of the city and county for a period of one year immediately preceding the date of their engagements to perform labor thereunder; provided, however, that the officer empowered to award any such contract may, upon application of the contractor, waive such residence qualifications and issue a permit specifying the extent and terms of such waiver whenever the fact be established that the required number of laborers and mechanics possessing qualifications required by the work to be done cannot be engaged to perform labor thereunder.

The term "public work" or "improvement," as used in this section shall include the fabrication, manufacturing or assembling of materials in any shop, plant, manufacturing establishment or other place of employment, when the said materials are of unique or special design, or are made according to plans and specifications for the particular work or improvement and any arrangement made for the manufacturing, fabrication or assembling of such materials shall be deemed to be a contract or a sub-contract subject to the provisions of this section.

The board of supervisors shall have full power and authority to enact all necessary ordinances to carry out the terms of this section and may by ordinance provide that any contract for any public work or improvement, or for the purchase of materials which are to be manufactured, fabricated or assembled for any public work or improvement, a preference in price not to exceed ten per cent shall be allowed in favor of such materials as are to

7.205 Contract Procedure by Ordinance

The board of supervisors shall, by ordinance, establish the necessary procedure to be followed in the advertising for bids, the award of contracts, the supervision of contract work, and the acceptance thereof on completion; also for the security to be given on the filing of bids to guarantee the execution of the contract if awarded, and for the security to be given on the award of contract for the faithful performance thereof and to guarantee the payment of wages for services engaged and of bills contracted for material, supplies and equipment used in the performance of the contract.

7.206 Collusion

If any party or parties to whom a contract has been awarded has been guilty of collusion with any officer or representative of the city and county, or any other party or parties, in the submission of any bid or in preventing of any other being made, or in knowingly receiving preferential treatment by any officer or an employee of the city and county, then any contract so awarded, if not completed, may be declared null and void by the board of supervisors on the recommendation of the purchasing agent or the department head concerned, as the case may be, and the purchaser of supplies or the department head concerned shall thereupon re-advertise for bids for said work for the uncompleted portion thereof. If the work under such contract shall have been completed, the matter shall be referred to the city attorney for such action as may be necessary. Any party or parties guilty of such collusion shall not be permitted to participate in or to bid on any future public work, improvement or purchase to be made by the city and county.

7.300 General Laws Applicable.

The general laws of the State of California authorizing the incurring and establishing the procedure for the creation of bonded indebtedness and authorizing and establishing the procedure for the issuance of bonds to refund indebtedness of municipalities in force at the time this charter is adopted shall, except as otherwise provided in this charter, be applicable to the creation of bonded indebtedness and the issuance of refunding bonds by the city and county.

7.301 Interest on Bonds During Construction.

In any case where bonds have been authorized for the acquisition, construction or completion of a public utility or of extensions thereto, interest which may become due on said bonds during the actual period of construction of said utility, or of extensions to an existing utility, as the case may be, and during the period of six months immediately following the completion of the same may be paid out of the proceeds of sale of the bonds authorized and sold for such purpose, if such method of payment of interest be expressly provided for in the proceedings authorizing such bond issue.

7.302 Bonds for Street and Other Public Work—Revolving Fund.

A municipal indebtedness may be authorized to be incurred by the voters, in the manner now or hereafter provided by the general laws of the State of California, for the purpose of financing public improvements the cost of which is to be assessed against private property benefited thereby, and bonds may be authorized by the voters to be issued therefor, the proceeds of which shall be used as a "Revolving Fund" to be applied to the payment of incidental and other expenses, the progressive payments on the work or works or to pay the principal or interest of bonds, securities or other evidences of debt issued against said special assessments or to purchase any bonds or coupons issued against such special assessments.

7.303 Bond Election by Petition.

In addition to the method prescribed by the other provisions of this charter, the proceedings for the authorization and issuance of bonds for the acquisition, construction or completion of any public utility or utilities may also be initiated by electors in the manner following: Whenever a petition, signed by qualified electors of the city and county equal in number to fifteen per cent of the electors who voted for all candidates for the office of mayor at the last general election at which a mayor of the city and county was elected, requesting the board of supervisors to submit to the electors of the city and county a proposition or propositions for incurring bonded indebtedness for the acquisition, construction or completion of any public or utilities shall be filed in the office in which initiative petitions are required by this charter to be filed, the board of supervisors shall, as soon thereafter as in its judgment shall be practicable, proceed to call an election and submit to the electors of the city and county the proposition or propositions of incurring bonded indebtedness of the city and county for the purpose or purposes set forth in said petition. Neither errors nor informalities in said petition or in the signatures thereto nor the failure of the percentage of electors herein specified to sign the same, nor any delay in submitting said proposition or propositions to the electors shall invalidate any bonds which may be issued and sold pursuant to the provisions hereof. The provisions of this charter relating to the filing, verification and certification of initiative petitions shall be applicable to the petition herein referred to. Such election shall be called and held in the same manner as other bond elections of the city and county, and all proceedings for the issuance of bonds for the acquisition, construction or completion of such public utility or utilities, excepting only as otherwise provided in this section, shall be taken in accordance with the provisions hereinbefore set forth in this charter.

7.301 Bonds for Capital Improvement Projects.

Whenever the capital improvement program recommended by the planning commission pursuant to Section 6701 contains a number of capital improvement projects with estimated costs of less than \$2,000,000 each and the board of supervisors by resolution adopted by two-thirds vote of all its members determines that public interest and necessity require the acquisition, construction or completion of more than one of such capital improvement projects to be specified in said resolution, but that the total estimated cost of said improvements will be too great to be paid out of the ordinary annual income and revenue of the city and county, and will require an expenditure greater than the amount allowed therefor by the annual tax levy and will require the incurring of a bonded debt, the board at any subsequent meeting may by a two-thirds vote of all its members pass an ordinance calling an election and ordering submission to the qualified voters of the city and county the single proposition of incurring a bonded indebtedness for the group of public improvements specified in said resolution. Such election shall be called and held in the same manner as other bond elections of the city and county. If the proposition receives the assent of two-thirds of the qualified electors voting in favor thereof, the bonded indebtedness may then be incurred for said group of public improvements. No proposition or propositions for incurring a bonded indebtedness shall be submitted to the voters at any one election pursuant to the provisions of this section where the total estimated cost of the group or groups of public improvements involved exceeds the sum of \$6,000,000.

The proceeds of the sale of bonds authorized at any such election (except premium and accrued interest received on the sale thereof) shall be applied exclusively for said group of public improvements, but in such amounts applicable to each thereof as the board of supervisors may from time to time determine, provided that as nearly as practicable each capital improvement project comprising a part of said group of public improvements shall be acquired, constructed and completed to the extent of funds then available therefor, which may be more or less than the original estimated cost of any capital improvement project comprised within said group of public improvements.

The provisions of the Municipal Bond Act of 1901, as amended, presently codified as Article 1, Chapter 4, Division 4, Title 4, of the Government Code of the State of California authorizing the incurring and establishing the procedure for the creation of bonded indebtedness by cities shall except as otherwise provided herein, be applicable to the creation of the bonded indebtedness authorized by this section.

7.305 Revenue Bonds of the Port Commission

The Port Commission may issue revenue bonds in the same manner and to the same extent as is provided for by the San Francisco Harbor Finance Bond Act of 1951, enacted by Stats. 1951, Chapter 1712, pages 4020, of the Statutes of California and codified as Sections 3300 to 3369 of the Harbors and Navigation Code of the State of California, except that the provisions of said Act codified as Section 3338 of the said Harbors and Navigation Code shall not be applicable to these bonds and the bonds shall instead be governed by the following provision:

The San Francisco Port Commission may fix terms and conditions for the sale or other disposition of any authorized issue of bonds and may provide that the bonds may be sold on the basis of the lowest net interest cost to the San Francisco Port Commission, the coupon rates to be fixed by the successful bidder on the sale of the bonds. The San Francisco Port Commission may authorize the City Treasurer to sell bonds at less than their par or face value, but no bond may be sold at a price below 95% of the principal amount of the bond and accrued interest thereon. The said San Francisco Port Commission may set the annual rate or rates of interest which the bonds to be issued shall bear, which rate or rates, at the discretion of the said Commission, may be determined by the bidder at the time of sale of said bonds. Such interest may be payable at such periods as may be fixed by the Commission.

All of the other provisions of said Act are by this reference incorporated in and made a part of this charter, except that where the term "Board of State Harbor Commissioners" is used it shall be deemed to mean the "Port Commission," and where the term "San Francisco Harbor" is used it shall be deemed to mean all the property under the jurisdiction of the San Francisco Port Commission, and where the term "San Francisco Harbor Bond Finance Board" or "Bond Finance Board" is used it shall be deemed to mean "Board of Supervisors of the City and County of San Francisco," and where the term "Attorney General of the State of California" is used it shall be deemed to mean "City Attorney," and where the term "State Treasurer" is used it shall be deemed to mean "City Treasurer," and where the term "State Controller" is used it shall be deemed to mean "City Controller." The revenue bonds issued hereunder shall be known as "Revenue Bonds of the Port Commission of San Francisco."

7.306 Airport Revenue Bonds

Subject to the approval, amendment or rejection of the board of supervisors in each instance, the airports commission shall have authority to issue airport revenue bonds for the purpose of acquiring, constructing, improving or developing airports or airport facilities under its jurisdiction under such terms and conditions as the commission may authorize by appropriate resolution. Such revenue bonds shall be issued in accordance with the Revenue Bond Law of 1941 as it now reads or may hereafter be amended. Such revenue bonds shall bear a rate of interest not to exceed that which may be fixed and prescribed by the commission subject to the approval or rejection of the Board of Supervisors without regard to the limitations contained in the Revenue Bond Law of 1941. Such bonds issued by the commission pursuant to the provisions of this section shall not constitute or evidence indebtedness of the city and county but shall constitute and evidence only indebtedness of said commission payable solely out of revenues received by the commission from airports or airport facilities operated or controlled by it. Airport revenue bonds issued for such purposes pursuant to this section shall not be included in the bonded debt limit provided for in Section 6.401 of this charter. Nothing in this section shall prevent the city and county from issuing general obligation bonds for the purpose of acquiring, constructing, improving or developing airports or airport facilities under the commission's jurisdiction, subject to the bond issue procedure provided for in this charter.

The planning commission shall consider and hold hearings on proposed changes in the zoning ordinance which classifies the uses to which property in the city and county may be put, and on the establishment or changing of building setback lines, either on its own motion, or on the application of interested property owners or their authorized agents. The board of supervisors, by ordinance, shall establish procedure for action on such matters. 7.503 Zoning Variances

The zoning administrator shall receive, investigate, hear and determine all applications for variances from the strict application of the provisions of the aforesaid ordinances. The board of supervisors shall establish by ordinance the procedure for action on such matters, including the manner by which notice of time and place of hearings shall be given. He shall have authority to grant such variances only when the strict and literal interpretation and enforcement of the provisions of said ordinances would result in practical difficulties, unnecessary hardships or results inconsistent with the general purposes of the zoning regulations. Before any such variance may be granted, there shall appear, and the zoning administrator shall specify in his findings, the facts in each case which shall establish:

(1) That there are exceptional or extraordinary circumstances or conditions applying to the property involved or to the intended use of the property that do not apply generally to the property or class of uses in the same district or zone;

(2) That such variance is necessary for the preservation and enjoyment of a substantial property right of the petitioner, possessed by other property in the same zone and vicinity; and

(3) That the granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or district in which the property is located.

The determination of the zoning administrator shall be final except that appeals therefrom may be taken, as hereinafter provided, to the board of permit appeals, exclusively and notwithstanding any other provision of this charter, by any person aggrieved or by any office, agency, or department of the city and county. An appeal from a determination of the zoning administrator shall be filed within ten days from the date of such determination with the board of permit appeals. Upon making a ruling or determination upon any matter under his jurisdiction, the zoning administrator shall thereupon furnish a copy thereof to the applicant and to the director of planning. No variance granted by the zoning administrator shall become effective until ten days thereafter. An appeal shall stay all proceedings in furtherance of the action appealed from.

It shall be the duty of the owner of any property fronting on a public street to keep the sidewalk in front thereof in good repair and condition and the board of supervisors is hereby empowered to provide by ordinance for the repair of such sidewalks in all cases where the owner fails and neglects to repair the same.

7.603 Special Assessment Projects

The board of supervisors shall establish a public improvement revolving fund to which the board may make appropriations from tax levies thereto for the purpose of such fund, and may establish procedure for the use of the credit of the city and county for the establishment of said revolving fund, to be used solely for the purpose of financing all or part of the initial cost of public improvements to be paid in whole or in part from the proceeds of special assessments levied against the property deemed to be benefited. A bond issue or issues may be proposed, as authorized elsewhere in this charter, the proceeds of which shall be paid into said revolving fund for the financing of public improvements, provided that said revolving fund shall be reimbursed as prescribed in this section by the levy and collection of special assessments and that the interest and redemption or sinking fund charges on any bonds authorized for such purpose shall be paid from the proceeds of such levy.

On the recommendation of the director of public works and the chief administrative officer, sufficient bonds may be sold at one time to provide funds for the estimated cost of financing special assessment projects for a period of not to exceed one year. When any public improvement is to be financed in whole or in part from the proceeds of special assessments levied against the land deemed to be benefited, the director of public works, subject to the approval of the chief administrative officer, shall report to the controller the estimated cost of such improvement, the amount thereof to be levied by special assessment and the estimated amount of the appropriation to be made from the public improvement revolving fund to meet the initial cost of the project, including progressive payments and other direct or indirect costs chargeable to such project, and shall recommend the appropriation of the necessary sum from such revolving fund.

Interest at the rate of not more than seven per cent may be charged on the unpaid balances of special assessments in cases where the owners of property against which such assessments are levied elect to pay such assessments in installments.

The amount of all special assessments levied for the payment of work financed out of the public improvement revolving fund, together with all interest accruing thereon, shall be credited as collected to such revolving fund. The board of supervisors may prescribe the duties of any city and county office, agency, or department in maintaining accounts of and collecting assessments for each such improvement.

7.604 Sewer, Water and Other Connections

The director of public works shall have authority, in the manner provided by ordinance by the board of supervisors, (1) to order the laying of sewer, water, gas and other mains, conduits or connections, whenever, in view of contemplated street improvements or as a sanitary regulation, such construction is recommended by the city engineer, and (2) to order that excavations, fences, embankments or grades on private property in a condition deemed by him as endangering the persons or property of those using the abutting streets, shall be put in such condition as to insure the safety of the public.

PART TWO: PERSONNEL POLICY

8.310 Declaration of Personnel Policy

- (2) All appointments in public service shall be made for the good of the city and county solely upon merit and fitness, as established by competitive examination, without regard to partisan, political, social or other considerations.

- (3) Notwithstanding anything to the contrary in ^{sub}section 1(a) or any other provisions of the charter, it shall be the policy of the City and County of San Francisco, consistent with a policy of nondiscrimination on the basis of race, sex, religion, and county, to encourage the hiring of blind persons. It shall further be the policy of the City and County of San Francisco that no otherwise qualified blind person shall be discriminated against in examination, re-examination, appointment, reappointment, waiver of eligibility for appointment or reappointment, promotion or demotion in any class, subclass or position in the civil service unless eyesight is indispensable for the performance of the duties and responsibilities of the class, subclass or position. It shall be the duty of the commission to classify, and from time to time it may reclassify, places of employment in the civil service the duties of which may be efficiently performed by qualified blind persons and to conduct appropriate examinations which will fairly test the capacity of blind persons as well as sighted persons to perform such duties.

8.311 Prohibition of Political Activity

Active participation in city and county politics, relative to the election or appointment of public officials, by civil service employees and eligibles of the city and county, is subversive of the best interests of the merit system and, therefore, persons holding positions in the classified civil service or on eligible lists for such positions shall take no active part in such political campaigns, or in soliciting votes, or in levying, contributing or soliciting funds or support, in each case for the purpose of favoring or hindering the appointment or election of candidates for city and county offices. Violation of the provisions of this section shall be deemed an act of insubordination and considered good cause for suspension or dismissal from position or removal from eligible list.

PART THREE: EXAMINATION AND APPOINTMENT

8.320 Qualifications of Applicants

Applicants for positions in the classified service shall be examined by section 8.100 under conditions established by the civil service commission. Provided, however, applicants for positions as matorman, conductor or bus operator on the municipal railway need not be residents of the city and county at the time of application, examination or appointment, but shall become residents within the meaning of section 8.100 within a reasonable time, not to exceed six months, after completion of the probationary period provided in section 8.100. Applicants for entrance positions in the uniformed force of the police department shall not be less than nineteen years of age at the time of taking the examination, nor less than twenty years of age or more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

8.340

Applicants for entrance positions in the uniformed force of the police department shall not be less than twenty years of age at the time of taking the examination, nor less than twenty-one years of age or more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

The commission shall advertise in the official paper the time, place and general scope of all examinations for entrance into the public service and may take further appropriate means to interest suitable applicants. When examinations for promotion are to be held, the commission shall give notice thereof to all persons in positions entitling them under the civil service rules, to participate in such examination, by posting information thereof in the office of the commission for a period of ten days and notifying the office, agency, or department concerned.

8.321 Examination of Applicants

All applicants for places in the classified service shall submit to tests which shall be competitive provided, however, that no test in either entrance or promotional examinations shall be deemed to be competitive unless two or more persons shall participate, except that any such examination may be held for one qualified applicant on recommendation of the civil service commission and approval by resolution of the board of supervisors, after a finding by the board that reasonable publicity of the proposed examination has been given by the civil service commission. Such tests shall be without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants for the positions to be filled. The commission shall be the sole judge of the adequacy of the tests to rate the capacity of the applicants to perform service for the city and county. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be submitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority application.

8.322 Protest of Written Questions and Answers

After the written portion of a civil service examination has been held, and prior to the scoring thereof, the questions used and the answers thereto shall be made available for review by the participants. During the review period, participants shall have an opportunity to protest questions or answers they believe to be incorrect or improper, and for this purpose shall be permitted to bring to the place of review such written authorities as they may desire to assist them in the preparation of their protests. The written portion of the examination shall not be scored until all protested items have been acted on by the civil service commission and an official rating key has been adopted. After the official rating key has been adopted, the examination papers have been scored and the identification sheets of the participants have been opened so that the identity of the participant is known, the civil service commission shall not make any changes in the examination questions or answers.

8.323 Protest of Tentative List of Eligibles

After the civil service commission has prepared and published or posted a tentative list of eligibles, arranged in order of relative excellence, as the result of any examination held by said commission, all examination papers, questions and answers, and all marks and grades given on any test given in said examination shall be open to public inspection, provided that the identity of the examiner giving any mark or grade in an oral test shall not be disclosed; and provided further that the commission may require the payment of a fee of not more than one dollar (\$1.) for the inspection of all of the papers relating to the examination of any one person participating in said examination; and provided further that a participant may examine his own examination papers without charge. The civil service commission shall have power to correct any error which in its judgment may have occurred in the rating of any participant in said examination, and to alter said published or posted tentative list of eligibles and to make changes accordingly therein. The civil service commission shall provide for a reasonable period of time for such inspection, but not less than three (3) working days for entrance examinations nor less than five (5) working days for promotive examinations nor more than two (2) calendar weeks for either entrance or promotive examinations. If no protests are received during the time limits provided by the civil service commission for such inspection, the tentative list of eligibles shall be given immediate final approval and adoption. If any protests are filed within the inspection period provided by the civil service commission, the investigation and action on such protests shall be expedited to the end that final approval and adoption of the eligible list may be made at the earliest possible time, provided that in no event shall such final approval and adoption be delayed beyond sixty (60) days after the date of publication or posting of the tentative list of eligibles.

The civil service commission by rules shall establish procedures for the review of written tests and the inspection of examination papers, as herein provided, for the maintenance of the security of examination material and for the protection of the public interest.

If he has received a permanent appointment from a list of eligibles derived from a promotive examination in which he has requested and been allowed the additional credits of three per cent as herein provided, and has served the full probationary period therein as provided in this charter, such additional credits of three per cent that have been allowed him on the lists of eligibles derived from other promotive examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other promotive examinations. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than ten per cent, for entrance appointment of veterans who have suffered permanent disability in the line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans' Bureau.

In the administration hereafter of the provisions of this charter, the terms Army, Navy or Marine Corps of the United States shall be deemed to include the Army, the Air Corps, the Navy, the Marine Corps, and the Coast Guard of the United States, and for the purposes of determining whether any person was mustered into, or served in, the Army, the Air Corps, the Navy, the Marine Corps, or the Coast Guard of the United States, in time of war, the expression, time of war, shall include the following periods of time:

Employees under permanent civil service appointment who, because of absence on duly authorized military leave after June 27, 1950, did not participate in a promotional examination held after June 27, 1950, and during time of war as defined in section 8.324 of this charter, and in which examination the employee would have been otherwise eligible to compete had the war not intervened, and which examination is hereinafter referred to as the original promotional examination, shall after abridgment of military leave, have the right to participate in a similar promotional examination. Provided, that persons and employees who were on entrance or promotive eligible lists, shall, for the purpose of this amendment, be deemed to be appointees in their classifications from the time their names were reached for permanent certification while in the military service.

8.324

In order to qualify for participation in a similar promotional examination under the provisions of this section, such employee who desires to participate therein must make application in writing to the civil service commission within thirty days after the abridgment of his military leave, or within thirty days after the effective date of this amendment. Failure to file such written request to participate in a similar promotional examination as herein provided shall be deemed a waiver of all rights of the employee to participate in such similar promotional examination.

The civil service commission shall arrange to hold such similar promotional examination within a reasonable time after employees eligible to request participation in any such similar promotional examination under the provisions of this section have indicated their desire to so participate, or have waived their right to participate, as herein provided.

The civil service commission shall be the sole judge of the adequacy of such similar promotional examination. If the employee obtains in the similar promotional examination a score rating equal to or more than the minimum passing mark established by the civil service commission for inclusion on the list of eligibles resulting from the original promotional examination, his name shall thereupon be entered on the eligible list resulting from the original promotional examination in accordance with the relative excellence obtained by all the qualified participants in the original and similar promotional examinations. If it is determined by the civil service commission that the name of such person would have been reached for permanent appointment from the list of eligibles established as a result of the original promotional examination during his term of military service had the name of such person appeared thereon, then such employee, upon appointment to a permanent position as herein provided, shall be granted seniority in such appointment from the date his name would have been reached had his name appeared thereon, but such seniority shall be used only for the purpose of determining salary increments and calculating city and county service credits in other promotional examinations held subsequent to the similar promotional examination herein authorized. For all other purposes, seniority of service shall date from the date of appointment as a result of qualifying in the similar promotional examination as herein authorized.

Such employees who qualify for appointment as a result of a similar promotional examination as herein provided, and who are appointed to permanent positions, as herein provided, shall be permitted to participate in other promotional examinations for which they are otherwise eligible, while serving under probationary appointment in the position to which appointed as a result of the similar promotional examination, provided that certification from lists of eligibles established from such other examinations shall not be made until the employee has satisfactorily completed the afore-said probationary appointment.

The civil service commission shall adopt rules to govern the administration of similar promotional examinations herein authorized, and appointments and other matters resulting therefrom.

8.329 Certification of Eligibles: Rule of One

Whenever a position controlled by the civil service provisions of this charter is to be filled, the appointing officer shall make a requisition to the civil service commission for a person to fill it. Thereupon, the commission shall certify to the appointing officer, the name and address of the person standing highest on the list of eligibles for such position. In case the position is promotive, the commission shall certify the name of the person standing highest on such list. In making such certification, sex shall be disregarded except when a statute, a rule of the commission or the appointing officer specifies sex.

From the requisition of the appointing officer or otherwise, the commission shall determine whether the position is, in character, temporary, seasonal or permanent, and shall notify the candidate in accordance therewith to the end that the candidate may have knowledge of the probable duration of employment. The commission shall provide for such waiver of temporary or seasonal employment as it may deem just to candidates.

8.330 Duration of Lists of Eligibles

---civil service

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

When in time of war declared by the Congress of the United States eligibles are not available for appointment from registers established through the regular examination procedure as provided under Y hereof, the civil service commission may qualify applicants for wartime appointments to positions through informal and non-competitive tests. Such tests and appointments resulting therefrom shall be governed solely by the provisions of this section and by rule of the civil service commission adopted pursuant thereto and the tests shall be adequate in the judgment of the civil service commission to determine the capacity of applicants to perform the duties of the positions to be filled pending creation of lists of eligibles through the regular examination procedure as provided in

Y hereof. Appointments made under the provisions of this section shall be designated "limited tenure appointments" and may continue only until registers of eligibles are established through the regular examination procedure provided in Y hereof but in no event to exceed six months beyond the cessation of hostilities. Limited tenure appointments may be terminated by the appointing officer at any time for lack of work or funds. Limited tenure appointments may be terminated by the appointing officer for good cause at any time with the approval of the civil service commission without reference to the procedures governing removals set forth in section Y hereof. Persons serving under limited tenure appointments as in this section provided shall by reason of such service acquire no right or preference to permanent civil service status as defined elsewhere in this charter or by rule of the civil service commission which is conferred on persons completing probationary appointments made from lists of eligibles established through the regular examination procedures provided in Y of the charter. Service after January 1, 1917, under limited tenure appointment, by platform employees of the municipal railway, shall not be included in the calculation of service of such employees for the purpose of determining assignments of runs when such assignments are made on the basis of seniority of service.

Non-civil service appointments in the absence of civil service eligibles as provided in Y of this charter shall not be authorized if applicants qualified for limited tenure appointments are available. The civil service commission shall make every effort consistent with current conditions to maintain adequate registers of eligibles established through the regular examination procedure provided in Y hereof.

The civil service commission shall adopt rules to carry out the provisions of this section and to govern the administration of limited tenure appointments.

In time of national emergency declared by the President of the United States or by the Congress or while any act authorizing compulsory military service or training is in effect, the provisions of this section may also be made operative upon recommendation of the civil service commission and approval of the board of supervisors by ordinance enacted by two-thirds vote of the board. Authority for limited tenure appointments, if established pursuant to the authority of this paragraph, shall cease six months after repeal by the board of supervisors of the ordinance which authorized such appointments.

8.332 Temporary and Emergency Appointments

When no list of eligibles exists or no eligible is available on an existing list for a position in the class requisitioned by the appointing officer, and immediate service in the position is required by the appointing officer and another list exists which is deemed by the commission to be suitable to provide temporarily the service desired, the commission shall have power to make a non-civil service appointment of an eligible from such list; provided, that if no such list exists, the commission pursuant to its rules may authorize the appointing officer to make a non-civil service or emergency appointment thereto for a period not exceeding ninety working days. Such non-civil service or emergency appointment, however, shall cease prior to the expiration of such ninety working days at the time a civil service eligible reports for duty as provided in section 8.329 of the charter.

service

8.329

If a list of eligibles exists for the position requisitioned, but immediate service is deemed necessary by the appointing officer pending the time an eligible from such list is certified and reports for duty as provided in section 8.329 of the charter, the commission may authorize the appointing officer to make a non-civil service or emergency appointment thereto for a period not exceeding thirty working days. Such non-civil service or emergency appointment, however, shall cease prior to the expiration of such thirty working days at the time a civil service eligible reports for duty as provided in section 8.329 of this charter.

No person shall be compensated under any non-civil service or emergency appointment or appointments as authorized under the provisions of the foregoing paragraphs of this section for a period exceeding ninety working days in any fiscal or calendar year, and no claim or warrant therefor shall be approved, allowed or paid for any compensation in excess of such ninety working days in any fiscal or calendar year.

If no eligibles are available for appointment to a permanent position in the class requested by the appointing officer the commission shall immediately hold an examination and establish an eligible list for such position. If its annual appropriation is insufficient to meet the cost of said examination, it shall report to the mayor the estimated cost thereof, and the mayor shall request and the supervisors shall make supplemental appropriation therefor in the manner provided herein for supplemental appropriations.

8.333 Appointments During an Unemployment Emergency

Whenever the board of supervisors by a three-fourths vote of all its members shall declare that an unemployment emergency exists throughout the city and county because of extraordinary conditions due to unemployment, and shall fix the period during which such unemployment emergency shall be officially recognized, the civil service commission shall then have power to exempt from civil service examinations during such emergency period all places of employment that may be created by special appropriation to relieve such unemployment emergency; provided, that no action shall be taken under the provisions of this paragraph that will adversely affect the rights of civil service eligibles for employment in the usual temporary and permanent positions that are provided for in the annual salary ordinance. The civil service commission shall adopt special rules for the government of appointments to the emergency positions that may be created under the authority of this paragraph.

8.340 Dismissal During Probation Period

Any appointment to a position declared permanent by the civil service commission shall be on probation for a period of six months, provided that the person appointed shall be in the uniform rank of the police department or fire department at the time during the probationary period. The appointing officer shall terminate the appointment upon giving ten days' notice of termination to the employees and to the civil service commission, stating the reasons for such termination. Except in the case of members of the police and fire departments the civil service commission shall inquire into the circumstances. If the appointment resulted from a promotional examination, the person appointed shall have the right of appeal and may appeal before the civil service commission. The commission shall make a decision within thirty days after receipt of the notice of termination and (a) may declare such person dismissed; or (b) order such person reinstated in his position without prejudice, and the commission may in its discretion order that the employee be paid salary from time of the termination of his appointment; or (c) order the reinstatement of such person to the position from which he was promoted. The decision of the commission shall be final. Immediately prior to the expiration of the probationary period the appointing officer shall report to the civil service commission as to the competence of the person appointed for the position, and if competent, shall recommend permanent appointment.

8.341 Dismissal for Cause

No person employed under the civil service provisions of this charter, exclusive of members of the police and fire departments as provided under section 8.340 hereof, in a position defined by the commission as "permanent" shall be removed or discharged except for cause, upon written charges, and after an opportunity to be heard in his own defense. Pending such hearing, the appointing officer may suspend the person so accused; but such suspension shall not be valid for more than thirty days, unless hearing upon the charges shall be delayed beyond such time by the act of the accused person. When charges are made, the appointing officer shall, in writing, notify the person accused of the time and place when the charges will be heard, by mailing such statement to his last known address. The appointing officer shall publicly hear and determine the charges, and may exonerate, suspend or dismiss the accused. If the employee is exonerated the appointing officer may, at his discretion, remit the suspension and may order payment of salary to the employee for the time under suspension, and the report of such suspension shall thereupon be expunged from the record of service of such employee. The civil service commission shall immediately be notified of the charges when made, of the hearing, and of the finding thereon. The finding of the appointing officer shall be final, unless within thirty days therefrom the dismissed employee appeals to the civil service commission. The appeal and all proceedings shall be in writing and shall briefly state the grounds therefor. The civil service commission shall examine into the case and may require the appointing officer to furnish a record of the hearing and may require in writing any additional evidence it deems material, and may, thereupon, make such decision as it deems just. The order or decision of the commission upon such appeal shall be final and shall forthwith be enforced by the appointing officer. If the civil service commission shall reverse or alter the finding of the appointing officer it may, in its discretion, order that the employee affected be paid salary from the time of his discharge or suspension.

8.343

The civil service commission may hear and determine any charge filed by a citizen or by the authorized agents of the commission when the appointing officer neglects or refuses to act. Removal or discharge may be made for any of the following causes: incompetence, habitual intemperance, immoral conduct, insubordination, discourteous treatment of the public, dishonesty, inattention to duties, or engaging in prohibited political activities.

Nothing in this section shall limit or restrict rules adopted by the commission governing lay-offs or reduction in force.

Any member so suspended shall have the right to appeal such suspension to the fire commission or to the police commission, as the case may be, and have a trial and hearing on such suspension. Written notice of appeal must be filed within 10 days after such suspension and the hearing of said appeal must be held within 30 days after the filing of said notice of appeal. If the commission shall reverse or alter the finding of the chief, it shall in the case of a reversal and in other cases it may in its discretion, order that the member affected be paid salary for the time of his suspension. In the event the chief should exercise such power of suspension, the member involved shall not be subject to any further disciplinary action for the same offense.

8.343 Fine, Suspension and Dismissal in Police and Fire Departments

Members of the fire and police departments, who are officers or who violate the rules and regulations of their respective departments, shall be liable to be punished by reprimand, or by fine not exceeding one month's salary for any offense, or by suspension for not to exceed three months, or by dismissal, after trial and hearing by the commissioners of their respective departments; provided, however, that the chief of each respective department for disciplinary purposes may suspend a member for a period not to exceed ten days for violation of the rules and regulations of his department. The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as hereinafter provided. The board of supervisors shall thereupon fix rates of pay for such crafts or groups accordingly and the said fixed rates of pay so fixed shall be effective from July 1st of the fiscal year in which such revisions are determined.

Should the budget estimates of the several departments be filed with the controller or transmitted to the mayor before any such report of said civil service commission is received by the board of supervisors, the head of each department affected by such report may amend its budget estimate to comply with the provisions of such report.

Not later than the 25th day of July in each year

the board of supervisors shall have power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

On recommendation of the civil service commission the board of supervisors shall establish a rate of pay for trainee platform men and bus or coach operators at a level reflecting the current labor market but below the basic hourly rate for motorman, conductor and bus operator.

in accordance with paragraphs (a) and (b) above, including those differentials established and paid as part of wages to platform employees and coach and bus operators of the municipal railway, but shall not include the value of those benefits paid into the fund established as herein provided. Provided that when in the two systems used for certification as provided above, vacation, retirement and health service benefits are greater than such similar benefits provided by this charter for platform employees, coach or bus operators of the municipal railway, then an amount not to exceed the difference of such benefits may be converted to dollar values and the amount equivalent to these dollar values shall be paid into a fund. The fund shall be established to receive and to administer said amounts representing the differences in values of the vacation, retirement and health service benefits, and to pay out benefits that shall be jointly determined by representatives of the city and county government and the representatives of the organized platform employees and coach and bus operators of the municipal railway. Such rules shall provide for a joint administration of the fund by representatives of the city and county government, which shall

include representatives of the municipal railway, platform employees, coach and bus operators of the municipal railway. Such rules shall provide that all investments of the fund shall be of the character legal for insurance companies in California. Such rules and any amendments thereto shall be effective upon approval by the board of supervisors by ordinance.

Not later than the 25th day of August the board shall enact appropriate measures to provide for payment of those rates of compensation retroactive to July 1.

(d) The term "firemen" as used in this section shall mean the persons employed, in the fire departments of said cities of 100,000 population or over or of the city and county of San Francisco, to perform substantially the duties being performed on the effective date of this section by drivers, stokers, tillermen, truckmen, or hosemen, in the San Francisco Fire Department. The expression "members of the fire department" does not include members of the fire commission.

(e) The term "rates of compensation," as used in this section, applies only to a basic amount of wages, with included range scales, and does not include such working benefits as might be set up by any other city such as holidays, vacations, other permitted absences of any type whatsoever, overtime, night or split shift, or pay for specialized services within a classification or rank, or any other premium pay differentials.

(f) For all purposes of the retirement system, the expression "rates of compensation" as used in this section, shall mean "salary attached to the rank" as used in section 8.640 and 8.665 and, with the addition of fifteen dollars per month with respect to members assigned to two-wheel motorcycle traffic duty, shall also mean "compensation earnable" as used in section 8.645 and 8.669.

(g) Absence of any police officer, woman protective officer, or police patrol driver or any officer or member of the fire department on military leave, as defined by section 8.702 of this charter, shall be counted as city and county service in computing years of service required to gain the added compensation provided for in subsection (a).

8.406 Salary Deductions

Whenever, in the judgment of the mayor and the board of supervisors, extraordinary economic conditions actually exist due to unemployment, fire, earthquake, flood or other calamity, which adversely affect the life, health and welfare of the citizens of the city and county or of any considerable portion thereof, the board of supervisors, by a three-fourths vote of all of its members, with the concurrence of the mayor, shall have power as follows, to-wit:

(1) To officially declare that a public emergency exists, and to fix the approximate anticipated time during which said emergency shall continue, provided that no such emergency shall be anticipated to continue beyond the end of the fiscal year during which the same is declared, unless such emergency be declared subsequent to the 1st day of January of said year, in which event the said emergency may be anticipated to continue until the end of the next succeeding fiscal year.

(2) To provide that while said emergency as declared shall continue to exist there shall be deducted from the gross salaries and compensations, exclusive of pension and retirement allowances, of each officer and employee of the City and County of San Francisco, including officers and employees of the board of education, not more than the respective amounts hereinafter set forth. Said deductions shall be made on the basis of the salary and compensation rate of said several officers and employees which were in effect during the calendar month immediately preceding the month during which said emergency was declared and not reduced by this section.

If said salary and compensation deductions are not reflected in the annual budget and appropriation ordinances, as set forth in subdivision 3 of this section, the amount of said deductions shall be used for the purpose of meeting or alleviating the emergency which has been declared, or to balance any deficiency existing in the general funds of the city arising by reason of the delinquency in the payment of taxes or other revenue as compared with the anticipated revenues over the same period. Provided that where salaries or compensations are paid out of bond funds, utility funds, or other trust funds, which are not provided from the revenues of the city, all deductions made shall revert to the respective funds from which said salaries or compensations are paid.

The maximum deductions from the salary or compensation of each officer or employee heretofore referred to shall be as follows, to-wit:

(a) From the salaries or compensation of officers or employees whose gross earnings exceed \$100 per month and do not exceed \$120 per month, three (3) per cent of the amount of the gross monthly earnings of each of said officers or employees.

(b) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of \$120 per month and do not exceed the sum of \$150 per month, seven (7) per cent of the gross monthly earnings of each of said officers or employees.

(c) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of \$150 per month, and do not exceed the sum of \$185 per month, ten (10) per cent of the gross monthly earnings of each of said officers or employees.

(d) From the salaries or compensations of all officers or employees whose gross earnings exceeds the sum of \$185 per month, and do not exceed the sum of \$275 per month, twelve and one-half (12½) per cent of the gross monthly earnings of each of said officers or employees.

(e) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of \$275 per month, and do not exceed the sum of \$650 per month, fifteen (15) per cent of the gross monthly earnings of said officers or employees.

(f) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of \$600 per month and do not exceed the sum of \$834 per month, eighteen (18) per cent of the gross monthly earnings of each of said officers or employees.

(g) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of \$834 per month, twenty (20) per cent of the gross monthly earnings of each of said officers or employees.

(h) Provided, however, that no more than five and one-half (5½) per cent of the gross monthly earnings of per diem employees whose compensations are fixed on the basis of a five-day week shall be deducted from the salaries or earnings of any such employee.

Said deductions shall be made from said earnings or compensations in monthly or semi-monthly installments according to the time at which said salaries or compensations are paid, provided that where the earnings of any officer or employee are on an hourly or per diem basis deductions based on his total earnings for the month shall be deducted from the installment of said earnings paid for the last half of the month.

(3) Should any such emergency declared as herein provided be anticipated to continue into the next fiscal year following the one during which said emergency has been declared,

shall base and estimate the net salaries and compensations to be paid at amounts not to exceed the said salaries and compensations as reduced by the above-mentioned percentages on the above-mentioned salary and compensation rates, and the annual appropriation and salary ordinance shall fix said net salaries and compensation accordingly. When any emergency is declared after the annual budget is prepared or adopted, or after the annual appropriation or salary ordinances are enacted, and before the annual tax rate is fixed as provided by law, said budget and said appropriation and salary ordinances may be revised or reenacted, so that the deductions herein authorized to be made may be reflected in the amount of the tax levy.

Sub. 4. All of such deductions, whether made after the passing of the annual budget appropriation and salary ordinance or included therein, shall be deemed as temporary deductions from the salaries

and the mayor
in preparing or
submitting the

estimates

and compensations of said officers and employees, and shall be continued only during the anticipated period for which said emergency has been declared.

(5.) In making the deductions herein provided for, the value of board, room and laundry or other maintenance furnished by the city and county to any officer or employee, when the same is made a part of his compensation by the civil service commission, shall be added to the monetary salary or compensation paid to said employee, and the amount of deductions from said salary or compensation shall be based on said monetary salary plus the value of said board, room and laundry or other maintenance, provided that no deduction shall be made for quarters furnished to any officer or member of the fire department.

(6.) During the period that any emergency shall exist after being so determined as hereinbefore provided, the controller, with the approval of the mayor and the board of supervisors, may re-allocate any unencumbered balance, or any part thereof, to the credit of any department or office exclusive of moneys or appropriations made or required to be made to any bond, bond interest, bond redemption, pension, utility, or trust fund, so that the same shall be available to meet the necessities of said emergency, irrespective as to whether the amount allocated to said department or office is fixed by this charter or is the result of a tax provided by said charter to be levied for said department. Should the period during which said emergency is anticipated to exist extend beyond the end of the fiscal year in which the same was declared to exist, the mayor, with the approval of the board of supervisors, may reduce the amount of any mandatory appropriation provided to be allocated to any office or department; or may reduce the amount of any tax provided by the charter to be levied for the support or maintenance of any department or office. Provided that no such deduction in appropriation, provided by this charter to be made to any department, or in the reallocation of funds, or reduction in the amount of said tax otherwise provided to be levied to produce funds for any department, shall be greater than is necessary to reflect the deductions in salaries provided in the section to be made by reason of said emergency.

The provisions of this section shall have precedence over conflicting provisions of this charter, but nothing herein contained shall adversely affect the rights of the officials and employees as set forth in section 8.400 (h) of the charter, during the period when no public emergency exists. Contributions by the city and county and by members of the San Francisco City and County Employees' Retirement System to, and benefits, pension payments and allowances under said retirement system, shall be calculated on the basis of gross salaries and compensations of such members in the same manner and amounts as if no deductions from said gross salaries and compensations were made under this section.

Should any emergency be declared pursuant to the provisions of this section,

which, in the judgment of the board of supervisors, will necessitate deductions from the salaries of the officers and employees of the city and county, over and above the amounts herein provided for, the board of supervisors, by unanimous vote of all of its members, and with the approval of the mayor, may authorize a further deduction from the salaries and compensations of any of said officers and employees by increasing the maximum deductions in this section provided for, up to and including an amount not to exceed twenty-five (25) per cent of said respective salaries or compensations as the same existed before any deduction by authority of this section.

8.410 Reimbursement of Expenses

Expenses of expenses therefor shall be authorized only by ordinance; provided, that allowances therefor shall not exceed cost of transportation including tolls and charges, if any, and a reasonable amount for meals and lodging. The board shall fix annual allowances for officers and employees.

8.411 Payment for Repair or Replacement of Equipment

Notwithstanding the provisions of sections 8.400 through 8.405 or any other provision of this charter, the board of supervisors may provide by ordinance for the payment of the costs of replacing or repairing equipment, property, or prostheses of the police department, fire department, or any other department of the city and county, as, but not confined to, uniforms, clothing, and equipment, and the cost of clothing and equipment shall be determined as of the date of the damage or loss.

That the board of supervisors may by a three-fourths vote of all of its members may make similar provision in relation to any other officer or employee where it finds that the damage or loss was occasioned by unusual circumstances or the occurrence of an extraordinary event.

The board is authorized to enact any and all ordinances necessary to carry out the provisions of this section.

PART THREE: HEALTH BENEFITS

8.420 Establishment of and Membership in Health Service System

A health service system is hereby established as a department of the city and county government and shall be subject to sections 3.680 through 3.682 and 8.420 through 8.432 inclusive. Said system shall be administered by a board to be known as the health service board. The members of the system shall consist of all employees, which shall include officers, of the city and county, of the San Francisco Unified School District, and of the Parking Authority of the City and County of San Francisco who are members of the retirement system. Any employee who adheres to the faith or teachings of any recognized religious sect, denomination or organization and, in accordance with its creed, tenets or principles, depends for healing upon prayers in the practice of religion shall be exempt from the system upon filing annually with the health service board an affidavit stating such adherence and dependence and disclaiming any benefits under the system. The health service board shall have the power to exempt any person whose annual compensation exceeds six thousand dollars (\$6,000) and any person who otherwise has provided for adequate medical care.

3.680 through
3.682 and 8.420
through 8.432

8.421 Continuation of Existing Plans

The medical care plans in effect upon February 5, 1958, shall continue in force and effect until rescinded or superseded by a new plan or plans adopted by the health service board and approved by ordinance of the board of supervisors, adopted by three-fourths of its members.

The board shall have the power to adopt a plan or plans for rendering medical care to members of the system, or for the indemnification of the cost of said care, or for obtaining and carrying insurance against such costs or for such care.

Such plan or plans as may be adopted, shall not become effective until approved by ordinance of the board of supervisors, adopted by three-fourths of its members.

The board of supervisors shall secure an actuarial report of the costs and effect of any proposed change in the benefits of the health service system or rates of contribution before enacting an ordinance or before voting to submit any proposed charter amendment providing for such change.

8.423 Revision of Schedules and Compensation

In January of each year, or more often if it deems necessary, at public hearings, the health service board shall review and determine the adequacy of medical care provided for members of the system and the adequacy of fee schedules and the compensation paid for all services rendered and it may make such revisions therein as it deems equitable but such revisions shall not become effective until approved by ordinance of the board supervisors adopted by three-fourths of its members.

8.424 Specificity Required for medical care

Each plan shall make detailed and specific provision for the benefits to be provided thereunder and for the rates of contribution required to support the plan.

8.425 Persons Covered

Each plan may make provision for the participation in the benefits of the system by the dependents of members, retired city and county employees, temporary city and county employees, such other dependents of deceased and retired city and county employees as the board of supervisors may authorize by ordinance, teachers and other employees of the San Francisco Unified School District retired under the San Francisco City and County Employees' Retirement System and resigned employees of the city and county and resigned teachers and employees of the school district whose resignations occur after June 15, 1955, and within thirty days immediately prior to the date on which, but for their resignations, they would have become retired members of the said retirement system, on whose relinquishment of retirement allowances as permitted by the charter occurs after such date and resigned employees of the San Francisco Unified School District not otherwise included. A resigned employee or teacher is one whose employment has terminated other than by retirement, discharge or death or who has relinquished retirement allowances. The purpose of empowering the health service board to make provision for the participation in the benefits of the system to the aforementioned resigned teachers and employees of the San Francisco Unified School District is to enable them, subject to the health service board's exercise of its power, to participate in the benefits of the system after transferring to the State Teachers' Retirement System from the San Francisco City and County Employees' Retirement System. The purpose of empowering the health service board to make provision for participation in the benefits of the system by the aforementioned resigned employees of the city and county and other resigned employees of San Francisco Unified School District is to permit the health service board to have power to treat them the same as it treats resigned teachers and employees of the San Francisco Unified School District.

As used in this section, and for the purpose of this section, the terms "city and county employees" and "employees of the city and county" shall include officers and employees of the Parking Authority of the City and County of San Francisco.

8.427 Effect of Other Charter Provisions

Except as otherwise specifically provided herein, all provisions of the charter shall be subject to the health service board and the health service system and its members, directors and employees in the same manner that they apply to the city and county, and departments of the city and county.

8.428 Health Service System Fund

There is hereby created a health service system fund. The costs of the health service system shall be borne by the members of the system and retired persons, the City and County of San Francisco because of its members and retired persons and because of the members and retired persons of the Parking Authority of the City and County of San Francisco, and the San Francisco Unified School District because of its members and retired persons. A retired person as used in this paragraph means a former member of the health service system retired under the San Francisco City and County Employees' Retirement System.

The city and county and the school district shall each contribute to the health service system fund amounts sufficient for the following purposes, and subject to the following limitations:

(a) All funds necessary to efficiently administer the Health Service System.

(b) Matching contributions for the fiscal year commencing July 1, 1962, and each fiscal year thereafter, equal to the amounts contributed thereto by members of the system, provided, however, that the total amount contributed by the city and county and the school district to the health service system fund in each fiscal year, for this purpose, shall not exceed an amount equal to the tax yield that can be produced in each fiscal year by six cents in the tax rate on each one hundred dollars (\$100.00) valuation of the real and tangible personal property assessed in and subject to taxation by the city and county and the school district.

(c) Monthly contributions required from retired members participating in the system shall be equal to the monthly contributions required from members in the system; provided, however, that for the fiscal year commencing July 1, 1962, and for each fiscal year thereafter, the city and county and the school district shall contribute funds sufficient to defray the difference in cost to the system in providing the same health coverage to retired members as is provided for active employee members thereof.

The city and county and the San Francisco Unified School District shall not contribute to the health service system fund any sums, except as hereinbefore provided. The city and county shall participate in the benefits of the system by providing dependent persons, retired persons, dependent persons, and the health service system fund shall not receive funds from San Francisco City and County Employees' Retirement System and resigned employees and is hereby declared in violation

8.429 Contributions to Fund

The health service board shall determine and certify to the controller the amount to be paid monthly by the members of the system to the health service system fund for the purposes of the system hereby created. The controller shall deduct said sums from the compensation of the members and shall deposit the same with the treasurer of the city and county to the credit of the health service system fund.

Such deductions shall not be deemed to be a reduction of compensation under any provision of this charter.

The health service board shall have control of the administration and investment of the health service system fund, provided that all investments shall be of the character legal for insurance companies in California. Disbursements from the fund shall be made only upon audit by the controller and the controller shall have and exercise the accounting and auditing powers over the health service system fund which are vested in him by this charter with respect to all other municipal boards, officers and commissions.

8.431 Limitation of Claims by Members

Except as herein provided members of the system shall have and possess no claim or recourse against any of the funds of the municipality by virtue of the adoption or operation of any plan for rendering medical care, indemnifying costs of said care or carrying insurance against such costs, but except as herein provided, the claim and recourse of any such member shall be limited solely to the funds of the system. All expenses of the system shall be paid exclusively from the health service system fund, and, except as herein provided, the city and county and the San Francisco Unified School District shall not appropriate or contribute funds in any manner for the purposes of the system hereby established and provided.

Any surplus or deficit existing in the health service fund on February 5, 1958, shall belong to or be the obligation of members, as the case may be, and the city and county and the San Francisco Unified School District shall neither receive payment nor credit nor shall it contribute to such fund on account of medical care rendered prior to such date.

- (1) After one year's continuous service, ten working days.
- (2) After five years' continuous service, fifteen working days.
- (3) After fifteen years' continuous service, twenty working days.

(b) Employees may elect not to take their entire vacation in any one year and in such event may accumulate the days allowable and not taken for use at some future time, provided, however, that no employee may accumulate unused vacation allowance in excess of thirty working days regardless of length of service.

(c) In computing vacation pay, no employee shall be considered to work more than five days each week. Vacation pay for employees working less than a five day week shall be computed proportionately.

(d) If a holiday occurs during such employee's vacation, and the employee would as a matter of law have been entitled to said day as a regular day off, such holiday shall not be considered a day of vacation chargeable to the employee's vacation allowance.

(e) The time when vacations are to be taken shall be at the convenience of the principal executive, with due regard for seniority.

(f) An employee with one year or more of service who ceases to be employed by the city and county and who has neither received nor waived his current annual vacation allowance shall receive a pro rata payment for all service performed since January 1 of the calendar year in which he ceases to be employed, together with an amount equivalent to any accumulated vacation allowances due him.

(g) The board of supervisors shall enact any and all ordinances necessary to administer, interpret and regulate the provisions of this section.

(h) Every employee of the City and County of San Francisco whose rate of compensation is fixed pursuant to the provisions of section 8.402 of this charter shall be entitled to receive an annual vacation at the time, with the pay and of the duration specified in section 8.403 and no section of the charter nor any provision of any collective bargaining agreement nor any street railway or bus wage schedule shall be construed in any manner or for any purpose to increase, reduce or otherwise affect the time or duration of, or pay for, vacations provided by section 8.403 nor shall any employee be deemed to have any vacation rights other than or in excess of the vacation rights specified in section 8.403.

(i) The vacation rights granted by section 8.403

All labor performed in excess of eight hours in any one day, or after a spread of ten consecutive hours in any one day, or five days in any one week, shall be paid for at the rate of time and one-half.

Conductors and motormen may be assigned to duty as bus operators and while assigned to such duty they shall receive the compensation fixed for such service. Such assignment shall be governed by seniority of service, subject to a qualifying test by the railroad management as to competency and to state laws as to qualifications and licensing.

8.451 Police Department

(a) The word "member" or "members" as used in this section shall mean the members of the several ranks in the police department set forth in section 3.531 of this charter.

3.531

(b) The basic week of service for each member shall be forty hours and the annual compensation set forth in section 8.401 of this charter shall be based upon said basic week of service.

(c) Each member shall be entitled to at least two days off during each week except as hereinafter provided.

(d) Whenever in the judgment of the police commission public interest, or necessity requires the services of any member to serve in excess of the basic week of service during any week, the said police commission may authorize the chief of police to permit said service, and said member shall be compensated therefor or shall receive equivalent time credited to him in lieu thereof in accordance with this sub-section. For service performed in excess of the basic week, members shall be compensated on the basis of straight time in accordance with the ratio which said excess service bears to the basic week of service and the annual compensation provided therefor in section 3.531, or in lieu thereof equivalent time off duty with pay.

3.531

(e) Nothing contained in this section shall be deemed to interfere with a vacation, as provided for in section 8.401 of this charter, or the normal days off per week; provided, however, that when in the judgment of the police commission public interest or necessity requires the services of any member to serve on his vacation, or part thereof, or normal days off, the said commission may authorize the chief of police to permit said member to serve during said vacation, or part thereof, or normal days off, and he shall receive additional compensation for the period so served. Said additional compensation shall be computed on the basis of straight time in accordance with the ratio which said extra service performed bears to the basic week of service and the annual compensations provided therefor in section 3.531.

8.401

3.531

(f) Nothing in this section shall abridge or limit in any way the provisions of Section 301, Part I, of the San Francisco Municipal Code, approving Rule 32 of the civil service commission, insofar as sick leave and disability leaves for members are concerned.

(g) Whenever in the judgment of the police commission the efficient performance of police duty requires that one or more members of the police department should report for roll call, orders, and assignments, prior to going on duty, the said commission may designate a period not to exceed fifteen minutes in any one day for said reporting, and the said periods of fifteen minutes need not be compensated for in money or in time off with pay.

(h) Notwithstanding the provisions of any of the foregoing sub-sections, the members of the police department shall be entitled to the days declared to be holidays for employees whose compensations are fixed on a monthly basis in the schedules of compensations adopted by the board of supervisors pursuant to the provisions of section 8.401 of the charter as additional days off with pay. Members required to perform police service in said department on said days shall be compensated on the basis of straight time as herein computed or shall be granted equivalent time off duty with pay in the judgment of the police commission.

8.401

The chief of department shall recommend and the fire commission shall provide by rule for work schedules or tours of duty for the officers and members occupying the several ranks of the fire department, provided however that all tours of duty established for officers and members assigned to the fire fighting companies, including the salvage corps, shall start at eight o'clock A.M. No such officer or member shall be required to work more than one hundred and twenty (120) hours in any fifteen-day period, nor shall any officer or member be required to work more than twenty-four consecutive hours except in case of a conflagration requiring the services of more than one-half of the force of the department. Officers and members may exchange watches with permission of the chief of department and time worked on such exchange of watches shall not be construed as time in violation of the limitation of 120 hours in any fifteen-day period nor twenty-four consecutive hours. Each such officer and each such member shall be entitled to at least one (1) day off duty during each week.

When, in the judgment of the fire commission, it is in the public interest that any such officer or member shall work on his day off and said officer or member consents to so work, he may at the direction of the chief of department work on said day off, and in addition to the regular compensation provided for said officer or member as set forth in this charter, said officer or member shall be entitled to be compensated at his regular rate of pay as provided for herein for said extra time served, or he shall be allowed the equivalent time off.

In any computation in the administration of the San Francisco City and County Employees' Retirement System in which the compensation, as defined in any provisions relating to the retirement system, is a factor, compensation for overtime provided for in this section shall be excluded, and no such overtime compensation shall be deemed as compensation for any purpose relating to such retirement provisions.

Officers and members of the uniformed force shall be entitled to the days declared to be holidays for employees whose compensations are fixed on a monthly basis in the schedule of compensations adopted by the board of supervisors, pursuant to the provisions of section 1 of the charter, as additional days off with pay. Officers or members required to perform service in said department on said days shall be compensated on the basis of straight time as herein computed or shall be granted equivalent time off duty with pay in the judgment of the fire commission.

For payroll purposes, that portion of each tour of duty which falls within each calendar day shall constitute a single tour of duty. The rate of compensation for the service performed by officers or members on a holiday or for service performed on an assigned day off, as in this charter provided, shall be calculated by dividing the annual rates of pay for each fiscal year by the number of single tours of duty as scheduled for the several ranks in the fire fighting companies in said fiscal year.

8.401

NOTE:

This chapter preserves all of the present charter provisions on retirement which are not obsolete. It does not, however, reprint those sections which grant retirement benefits which have already vested in a closed and identified class of employees. For example, section 165.1.4 increases by \$25 per month the retirement allowances of miscellaneous officers and employees who retired under section 165 of the charter prior to July 1, 1952. In order to simplify and shorten the retirement provisions in the reorganized charter, while at the same time protecting all existing rights and benefits, section 165.1.4, and others like it, would not be reprinted in the reorganized charter but all of its provisions would be "saved" by section 8.500.

An alternative approach is to include all present charter sections pertaining to retirement (including those like section 165.1.4), stripped of obsolete language and reorganized to fit the new organization scheme. Volume 5, on file at the Committee office, presents the retirement sections in this form.

CHAPTER FIVE: RETIREMENT BENEFITS

PART ONE: EXISTENCE OF AND MEMBERSHIP IN THE RETIREMENT SYSTEM

8.500 Continuing Effect of Provisions of the Charter of 1932, as Amended

(a) The intent of these provisions is to continue in force the provisions already existing in the charter of 1932, as amended, for retirement and death benefits for officers and employees of the city and county while, at the same time, including as sections in this charter only those provisions of the charter of 1932, as amended, which apply to persons who become officers and employees of the city and county. on or after the effective date of this charter.

(b) Each member of the retirement system on the effective date of this charter shall retain all credits in that system to which he was entitled on that date pursuant to provisions of the charter of 1932, as amended.

(b) If, a member does not affirmatively exercise the option provided in subsection (a), or if he exercised it affirmatively and defaults in any of the contributions due to the retirement system under said election, and in either event if such contributions are not made for him, he shall be considered absent during the period for which no contributions are made, and he shall not receive credit as service for the city and county for such period; but the absence during such period shall not break the continuity of such service required of such member to entitle him to a retirement allowance, as provided under the retirement system.

(c) Any member who was absent on military service and who did not make the contributions as provided in this section, and whose contributions are not paid for him by the city and county as provided herein, may make such contributions upon his return to city service at times and in the manner prescribed by the board. If he does so contribute, he shall receive credit for the absence as service in the same manner as if he had not been absent.

(d) When a member makes the contributions as provided herein, the same contributions shall be made by the city and county in respect to such absence that would have been made if the member had not been absent on military service, except that such contributions shall be determined by the employer's rate of contribution in effect when such contributions are made, and on the basis of his compensation earnable at the commencement of his absence.

(e) The city and county shall contribute for each member of the system who was absent on military service amounts equal to the contribution which would have been made by such member and the City and County of San Francisco on the basis of his compensation earnable at the commencement of his absence, provided that the member's base pay in such military service is less than \$100.00 per month. If the absence in military service was by reason of service in the armed forces of the United States and the member's base pay in such service was less than \$250.00 per month, the city and county shall pay the contributions which would have been made by both the member and the city and county on the basis

of his compensation payable at the commencement of his absence. Contributions made by the city and county, in lieu of contributions which otherwise would be required of the member, shall be administered as if made by said member as usual contributions. Any such member who consents or did exercise the right to contribute to the system during the period of absence on military service, and whose contributions otherwise would be paid by the city and county under this section, shall have his contributions plus credited interest, refunded.

(f) For the purposes of this section, a
(f) member is subject to military service when he is absent from city service by reason of

(1) service with the armed forces of the United States or the State of California;

(2) service on ships operated by or for the United States government when such service is granted as "military leave" pursuant to section 8.351 of the charter;

(4) any other service, under an order of the government of the United States or the State of California, or by lawful order of any of the departments or officers of said governments, provided that such absence in any of such services occurs:

~~(a)~~ either during a war involving the United States as a belligerent or in time of national emergency, declared by the President of the United States or by the Congress, and for such time thereafter as may be provided by rule of the civil service commission, but not to exceed two years after the proclamation of peace, except in case of disability incurred in line of duty with said armed forces or said ships when such disability extends beyond such period; or

~~(b)~~ in time of peace if he is drafted for such services by the United States government or volunteers for such service while subject to such draft.

whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or

whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

(h)

Notwithstanding any other provisions of this Charter, any member who entered military service from a position with the Market Street Railway Company, was absent on such military service on September 29, 1944, and thereafter commenced employment with the Municipal Railway of the City and County of San Francisco within one year after his discharge from such military service shall have the right to elect to make contributions as provided in this section and to receive credit in this system as city service for all or any part of the time on and after September 29, 1944, during which he was in such military service.

Any member who elects pursuant to this section to make contributions and to receive credit for such time shall contribute to the Retirement System an amount determined by applying the rate of contribution first applicable to him on the effective date of his membership in the Retirement System to the monthly compensation earnable by him on said date, together with interest on said amount at the rate of interest being used from time to time under the retirement system.

The board of supervisors shall provide by ordinance the time and manner for making said contributions and for the crediting of such service as city service.

8.512 Social Security Coverage

(a) The board of supervisors may enact, by a vote of three-fourths of its members, an ordinance or ordinances prescribing the conditions according to which any and all employees of the San Francisco Unified School District and employees of the City and County of San Francisco, other than members of the fire and police department (as defined in section 8.549) may be covered under the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, subject to the provisions of this section. "city and county" as hereinafter used shall mean the city and county of San Francisco and the San Francisco Unified School District.

(b) Any member of the Retirement system, who is or becomes covered by the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, hereinafter referred to as the Act, shall continue to contribute to the system the normal contributions required of him, except that he shall have the right to reduce his normal contributions under the system at his option to be exercised by an election on the system's form, said election to be effective on the first day of the month next following its filing in the system's office. Such reduction of normal contributions shall apply only to time during which said member is covered under the Act, and the amount of said reduction, which may be changed from time to time by said member, in accordance with rules and regulations of the Retirement Board, shall not be more than the amount of said member's contribution under the Act.

Any allowance payable to or on account of such member by the system shall be reduced on the effective date of said allowance by the actuarial equivalent on that date of the normal contributions, including interest to said date with which said member would have been but was not credited under the system because of said reduction in his normal contributions and because of amounts paid from such member's accumulated contributions for the retroactive period hereinafter provided for, and any continuation of said allowance shall be based on such reduced allowance but said allowance shall not be affected otherwise by the member's reduction of his normal contributions. Said member shall have the right to contribute amounts, which shall be administered as additional contributions, to replace all or part of such reduction in his retirement allowance.

Every employee covered by the agreement providing coverage under the Act shall be liable for the employee contributions required by the Act.

(c) The reductions in allowances and contributions of members shall be made as provided in the foregoing paragraphs notwithstanding any provisions in the charter to the contrary.

(d) The effective date of coverage under the Act may be made retroactive to such date as the board of supervisors may determine. Contributions required under the Act of each member for time included by the retroactive application shall be paid from such member's accumulated contributions held by the system on account of his compensation not in excess of the maximum compensation taxable under this Act for such retroactive time. If the required contributions under the Act exceed the member's accumulated contributions held by the system so determined, the additional contributions under the Act equal to the excess shall be paid by the member. Contributions required under the Act of the employee on account of such retroactive period shall be paid from funds held by the system on account of active members and derived from contributions of the city and county.

(e) Any member who is covered by section 210 (1) of the Act on the effective date of the agreement between the state and federal government to extend coverage to the members of the system under the Act shall not be subject to this section unless he elected to be covered in accordance with the provisions of the charter of 1932, as amended.

Each member who enters the employ of the municipal railway after the effective date of the agreement between the state and federal government to extend coverage to other members of the system under the Act shall be covered under the act in accordance with the terms of this section and the ordinance or ordinances enacted pursuant thereto.

(f) Provision shall be made for modification of the member's retirement allowance at his option, if he retires before he attains the minimum age of qualification for his primary benefit under the Act, in such manner that will make his increased monthly retirement allowance under the system prior to attainment of such age equal to the sum of his decreased monthly allowance after attainment of such age, and his primary benefit under the Act, upon the basis of an estimated primary benefit under the Act, subject to the requirement that the amounts of the increase and decrease in the monthly allowance shall be actuarially equivalent, and that the increase shall not be modified under an option provided by ordinance.

(g) The contribution rates of the city and county applicable to various memberships under Part Three, Chapter Five, shall be adjusted to rates determined by the actuary according Article 8 to methods stated in paragraph 5, section 8.526.

- (b) Every retirement allowance payable by the system for time commencing on the effective date of this charter to or on account of any member or retired member covered by the Act on account of services rendered by him to the city and county shall be the retirement allowance to which such member or retired member is entitled without reduction on account of such coverage.

8.540 168.1 of 1932, as amended, or under Part Four of Chapter Five of this charter

(a) No person retired for service or disability and in receipt of a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such persons receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror or in the preparation for or the giving of testimony as an expert witness for or on behalf of the city and county of San Francisco before any court or legislative or administrative body shall not be affected by this section or by section 8.540 of the charter.

(b) Except as provided in subsection (c), should any retired person, except persons retired for service prior to January 8, 1932, and persons retired because of disability incurred in the performance of duty, engage in a gainful occupation prior to attaining the age of sixty-two, the retirement board shall reduce that part of his monthly pension or retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed the compensation on the basis of which his pension or retirement allowance was determined.

(c) Should any person retired as a member of the police department under Section 168.1 of the charter of 1932, as amended, or under Part Four of Chapter Five of this charter engage in a gainful occupation prior to attaining the age of sixty, the retirement board shall reduce that part of his monthly retirement allowance which is provided by contributions of the city and county, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed the amount of the compensation earnable at the time he engages in the gainful occupation, by the member if he then held the position which he held at the time of his retirement, or, if that position has been abolished, the compensation earnable by the member if he held the position from which he was retired, immediately prior to its abolition.

8.511 Cost of Living Adjustment in Retirement Allowances

(a) The retirement board shall determine, prior to April 1 of each year, the percentage of increase or decrease in the cost of living during the preceding calendar year or years, as shown by the then current Consumer Price Index, All Items, San Francisco (1957-59 = 100), issued by the U. S. Bureau of Labor Statistics and published in the Monthly Labor Review or a successor publication. The cost of living adjustments as hereinafter provided shall be based on the percentage of such increase or decrease.

(b) Every retirement or death allowance payable to or on account of any member who retires or dies as a member of the system or who has retired or dies as such a member, except allowances subject to change when the salary rate of any member is changed, shall be increased or decreased as of July 1 of each year, subject to the provisions of this section, by a percentage of the allowance payable to the individual who is receiving the allowance on the date of any such adjustment (a) exclusive of the annuity provided by additional contributions and (b) prior to modification pursuant to section 8.512. On July 1 of each year, the percentage of increase or decrease in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent of increase or decrease in the cost of living in the calendar year or years since January 1, 1969, or since January 1 of the year in which the last such cost of living adjustment in allowances was made, whichever is later. Any such allowance shall be so adjusted only if it was in effect for at least one year prior to the date of such adjustment. Such adjustment in any year shall not exceed two per cent of such allowance; provided however that no allowance shall be reduced below the amount being received by the member or his beneficiary on July 1, 1968, or on the effective date he began to receive the allowance, whichever is later.

(c) Any such increases in allowances shall be paid from funds which shall be allocated for that purpose by the retirement board from such earnings on investments not otherwise allocated and after crediting of regular interest to accumulated contributions as are in excess of two per cent of the assets of the retirement system at the close of each fiscal year.

(d) Any such increases in allowances which are not funded by such allocation of such earnings, shall be funded by contributions of members under Sections 165, 165.2, 168.1 and 171.1 of the charter of the Y, which shall be at rates which are in addition to the rates of contribution otherwise provided by charter or ordinance, provided that a member's rate of contribution shall not exceed one-half of one per cent of his monthly

1932, as amended and parts Three and Four of this chapter Five of Article 8,

compensation. The contributions made under this section by any member shall be credited together with regular interest thereon to his individual account and shall be subject to the same charter and ordinance provisions relating to accumulated contributions of the member, including withdrawal and death benefits other than death allowances; provided, however, that upon his retirement or death, such accumulated contributions and interest shall not be applied to provide a part of the retirement benefits payable to him or the death allowance benefits payable on account of his death otherwise provided by charter or ordinance, but instead shall be held, together with the accumulated contributions made by the A pursuant to this section with interest thereon, to provide the benefits under this section. Whenever such accumulated contributions of a member with

city and
county

interest thereon shall be paid to him on account of his termination of service or to his beneficiary or estate as part of his death benefits, as provided by charter or ordinance, an amount equal to the amount of contributions and interest so paid shall be applied to reduce the contributions by the A then currently payable under this section. If a member, upon his reentry into membership after the withdrawal of his accumulated contributions, shall redeposit the accumulated contributions withdrawn with interest, as otherwise provided by the charter or ordinance, he shall redeposit the accumulated contributions made under this section with interest in the same manner and under the same conditions as the redeposit of his other accumulated contributions, and an amount equal to the amount of such redeposit of accumulated contributions made under this section with interest, shall become payable forthwith by the Y to be included in the Y's contributions under this section.

(e) The rates of contribution of members and the A , as provided herein, shall be fixed by the retirement board from time to time as it determines necessary.

compensation laws included in the Labor Code of the State of California, as they effect the benefits provided for or payable to or on account of officers and employees, including teachers of the city and county, shall be administered exclusively by the retirement board, provided that the retirement board shall determine whether the city and county, through the retirement system, shall assume the risks under the said law, in whole or in part, or whether it shall reinsure such risks, in whole or in part, with the state compensation insurance fund. Benefits under such risks as may be assumed by the city and county, and premiums under such risks as may be reinsured shall be paid by the retirement system, and an amount equal to the total of such benefits and premiums, as determined by the actuary for any fiscal year, including the deficit brought forward from previous years, shall be paid during such fiscal year to the retirement system by the city and county.

Every patrol special police officer, as referred to in section 8.529 of this charter shall be entitled, under this section, to the benefits of such compensation law, if injured while performing regular city and county police duties, which shall include only duties performed while preventing the commission of a crime, or while apprehending the person or persons committing such crime, and shall not include duties of any character performed for private employers either on or off the premises of such employers, provided that no payments shall be made under this paragraph in the event that the patrol special officer shall receive the benefits of such compensation law from any other source.

Whenever any member of the fire or police department, as defined in sections 8.529 and 8.549 is incapacitated for the performance of his duties by reason of any bodily injury received in or illness caused by the performance of his duty, as determined by the retirement board, he shall become entitled, regardless of his period of service with the city and county, to disability benefits equal to and in lieu of his salary as fixed by the charter, while so disabled, for a period or periods not exceeding twelve months in the aggregate, with respect to any one injury or illness. Said disability benefit shall be reduced in the manner fixed by the board of supervisors by the amount of any benefits other than medical benefits payable to such person under the Labor Code concurrently with said disability benefit, and because of the injury or illness resulting in said disability. Such disability benefits as are paid in the absence of payments of any benefits other than medical benefits under the workmen's compensation laws included in said Labor Code, shall be considered as in lieu of such benefits, payable to such person under the said Code concurrently with said disability benefits, and shall be in satisfaction and discharge of the obligations of the city and county to pay such benefits under the Labor Code. Medical treatment which may become necessary to relieve or cure said member from the effects of the injury or illness shall be furnished by the city and county, in the same manner that such treatment is furnished under said Labor Code, but without first requiring continu-

ing awards of such benefits by the Industrial Accident Commission of the State of California, relating to impairments of permanent or of extended and uncertain duration. The provisions of this paragraph shall be administered exclusively by the retirement board, and the city and county shall pay to the retirement system during each fiscal year, an amount equal to the total disability benefits paid by said system during that year. A member of the fire or police department shall receive credit as service, under the retirement system, for time during which he is incapacitated for performance of duty and receives said disability benefit. Contributions for the retirement system shall be deducted from said benefits in the same manner as they would be deducted from salary paid to him, and the city and county shall contribute, in addition to its other contributions provided herein, to the retirement system on the basis of said benefits in the same manner as it would contribute on salary paid to said member.

8.523 Service Retirement

(c) Any member, as defined in section 8.522, who completes at least twenty years of service in the aggregate credited in the retirement system and attains the age of fifty-five years, or at least ten years of service in the aggregate credited in the retirement system, and attains the age of sixty years, said service to be computed under section 8.521, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years, except that elective officers the are members of the system under this section shall be retired on the day following the end of the term of office in which the age of 70 years is attained. A member retired after reaching the age of sixty years shall receive a service retirement allowance at the rate of $1 \frac{2}{3}$ per cent of said average final compensation for each year of service; provided, however, that upon the compulsory retirement of a member upon his attainment of the age of sixty-five years, if the allowance available to such member pursuant to the provisions of section 8.524 shall be greater in amount than the service retirement allowance otherwise payable to such member under this section, then such member shall receive as his service retirement allowance, in lieu of the allowance otherwise payable under this section, an allowance computed in accordance with the formula provided in said section 8.524. The service retirement allowance of any member retiring prior to attaining the age of sixty years, after rendering twenty years or more of such service and having attained the age of fifty-five years, computed under section 8.523, shall be such as can be provided at the age of retirement at age sixty and with the service credited at the date of actual retirement.

Before the first payment of a retirement allowance is made, a member retired under this section or section 8.521, may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits. At any time within 30 days after the date on which his compulsory retirement would otherwise have become effective, a member who has attained the age of 65 years may elect, without right of revocation, to withdraw his accumulated contributions. Such election shall be exercised in writing on a form furnished by the retirement system and a member so electing shall be considered as having terminated his membership in said system on the date immediately preceding the date on which his compulsory retirement would otherwise have become effective. He shall be paid forthwith his accumulated contributions, with interest credited thereon.

Notwithstanding the provisions of Section 1.512, the portion of service retirement allowance provided by the city and county's contributions shall be not less than \$100 per month upon retirement after thirty years of service and after attaining the age of sixty years, and provided further that as to any member with fifteen years or more of service at the compulsory retirement age of sixty-five, the portion of the service retirement allowance provided by the city and county's contributions shall be such that the total retirement allowance shall not be less than \$100 per month. In the calculations under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed for each class of service, the average final compensation in each case being that for the respective class of service; provided that the aggregate retirement allowance shall be taken into account in applying the provisions of this subsection providing for a minimum retirement allowance. Part time service and compensation shall be reduced to full time service and compensation in the manner prescribed by the board of supervisors, and when so reduced shall be applied on full time service and compensation in the calculation of retirement allowances.

(b) Upon the completion of the years of service set forth in subsection (a) as requisite to retirement, a member shall be entitled to retire at any time thereafter in accordance with the provisions of subsection (a), and nothing shall deprive said member of said right.

8.521 Disability Retirement

Any member who becomes incapacitated for performance of duty because of disability determined by the retirement board to be of extended and uncertain duration, and who shall have accumulated at least ten years of service credited in the retirement system in the aggregate, computed as provided in section 8.521 hereof, shall be retired upon an allowance of one and one-half per cent of the average final compensation of said member, as defined in section 8.529 hereof for each year of credited service, if such retirement allowance exceeds one-third ($1/3$) of his average final compensation; otherwise one and one-half ($1\frac{1}{2}$) percent of his average final compensation multiplied by the number of years of city-service which would be credited to him were such city-service to continue until attainment by him of age sixty, but such retirement allowance shall not exceed one-third ($1/3$) of such average final compensation. In the calculation under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the average final compensation in each case being that for the respective class of service; provided that the average final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation receivable by the member in the class of service rendered by him during the five (5) years immediately preceding his retirement. Part time service and compensation shall be referred to full time service and compensation in the manner prescribed by the board of supervisors, and then so reduced shall be applied as full time service and compensation in the calculation of retirement allowances. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of any commission or board, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to service in the position or classification he occupied at the time of his retirement.

8.522 Workmen's Compensation Payments

No modification of benefits provided in this Part Three shall be made because of any amounts payable to or on account of any member under workmen's compensation laws of the State of California.

If a member shall die, before his retirement, regardless of cause:

(1) If no benefit is payable under subdivision (2) of this section, a death benefit shall be paid to his estate or designated beneficiary consisting of the compensation earnable by him during the six months immediately preceding death, plus his contributions and interest credited thereon.

(2) If, at the date of his death, he was qualified for service retirement by reason of service and age under the provisions of section 8.529, and he has designated a beneficiary, his surviving spouse, who was married to him for at least one full year immediately prior to the date of his death, one-half of the retirement allowance to which the member would have been entitled if he had retired for service on the date of his death shall be paid to such surviving spouse who was his designated beneficiary at the date of his death, until such spouse's death or remarriage, or if there be no surviving spouse, to the unmarried child or children of such member under the age of eighteen years, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If, at the death of such surviving spouse, who was receiving an allowance under this subdivision (2), there be one or more unmarried children of such member under the age of eighteen years, such allowance shall continue to such child or children, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If the total of the payments of allowance made pursuant to this subdivision (2) is less than the benefit which was otherwise payable under subdivision (1) of this subsection, the amount of said benefit payable under subdivision (1) less an amount equal to the total of the payments of allowance made pursuant to this subdivision (2) shall be paid in a lump sum as follows:

(a) If the person last entitled to said allowance is the remarried surviving spouse of such member, to such spouse.

(b) Otherwise, to the surviving children of the member, share and share alike, or if there are no such children, to the estate of the person last entitled to said allowance.

The surviving spouse may elect, on a form provided by the retirement system and filed in the office of the retirement system before the first payment of the allowance provided herein, to receive the benefit provided in subdivision (1) of this section in lieu of the allowance which otherwise would be payable under the provisions of this subdivision. If a surviving spouse, who was entitled to make the election herein provided, shall die before or after making such election but before receiving any payment pursuant to such election, then the legally appointed guardian of the unmarried children of the member under the age of eighteen

7 154
years may make the election inasmuch provided herein any benefit has been paid under this section, for said or benefit of said children if in his judgment it appears to be in their interest and advantage, and the election so made shall be binding and conclusive upon all parties in interest.

If any person other than such surviving spouse shall have and be paid a community property interest in any portion of any benefit provided under this section, any allowance payable under this subdivision (1) shall be reduced by the actuarial equivalent, at the date of the member's death, of the amount of benefits paid to such other person.

Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar death benefit upon the death of other retired members.

8.524 Rights upon Termination of Employment

Should any miscellaneous member cease to be employed as such a member, through any cause other than death or retirement, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to cover similar terminations of employment and re-employment with and without resumption of withdrawn accumulated contributions of other members of the retirement system. If such member is entitled to be credited with at least ten years of service or if his accumulated contributions exceed one thousand dollars (\$1,000), he shall have the right to elect, without right of revocation and within 90 days after said termination of service, or if the termination was by lay-off, 90 days after the retirement board determines the termination to be permanent, whether to allow his accumulated contributions to remain in the retirement fund and to receive benefits only as provided in this paragraph. Failure to make such election shall be deemed as irrevocable election to withdraw his accumulated contributions. A person who elects to allow his accumulated contributions to remain in the retirement fund shall be subject to the same age requirements as apply to other members under this section for service retirement but he shall not be subject to a minimum service requirement. Upon the qualification of such member for retirement by reason of age, he shall be entitled to receive a retirement allowance which shall be the actuarial equivalent of his accumulated contributions and an equal amount of the contributions of the city and county, plus $1\frac{2}{3}$ per cent of his average final compensation for each year of service credited to him as rendered prior to his first membership in the retirement system. Upon the death of such member prior to retirement, his contributions with interest credited thereon shall be paid to his estate or designated beneficiary.

8,525 Computation of Service

The following time and service shall be included in the computation of the service to be credited to a member for the purpose of determining whether such member qualifies for retirement and calculating benefits:

(1) Time during which said member is a member of the retirement system and during and for which said member is entitled to receive compensation because of services as a miscellaneous officer or employee.

(2) Service in the fire and police departments which is not credited as service of a member under this section shall count under this section upon transfer of a member of either of such departments to employment entitling him to membership in the retirement system under this section, provided that the accumulated contributions standing to the credit of such member shall be adjusted by refund to the member or by payment of the member to bring the amount at the time such transfer to the amount which would have been credited to it had the member been a miscellaneous employee throughout the period of his service in either of such departments at the compensation he received in such departments.

(3) Time during which said member is absent from a status included in paragraphs (1) or (2) next preceding which is not deemed absence from service under the provisions of section 8.511 of the charter and for which such member is entitled to receive credit as service for the city and county by virtue of contributions made in accordance with the provisions of such section.

(4) Prior service determined and credited as prescribed by the board of supervisors for persons who are members under section 165 of the charter of 1932, as amended.

(5) The board of supervisors, by ordinance enacted by a three-fourths vote of its members, may provide for the crediting as service under the retirement system of service, other than military service, rendered as an employee of the federal government and service rendered as an employee of the State of California or any public entity or public agency in the State of California. Said ordinance shall provide that all contributions required as the result of the crediting of such service shall be made by the member and that no contributions therefor shall be required of the city and county.

8.526 Contributions to Retirement Fund

All monies provided under this Part Three shall be paid from funds derived from the following sources, plus interest earned on said funds:

Part Three

Part Three

(1) The rate of contribution of each member under this shall be based on his present age at the effective date of his membership in the retirement system. The normal rate of contribution of each such member, to be effective from the effective date of membership under this, shall be such as, on the average for such member, will provide, assuming no other interruption, under section 8.525, one-half of that portion of the service retirement allowance to which he would be entitled if retired at age sixty or higher age after ten years of service for retirement under that allowance. No adjustment shall be included in said rates because of the fact that such members have contributed at different rates. Members' rates of contributions shall be changed only in the manner prescribed by the board of supervisors for changing contributions rates of other members.

Part Three

(2) There shall be deducted from each payment of compensation made to a member under this, a sum determined by applying the member's rate of contribution to such compensation. Amounts which would have been deducted in the absence of the limit on such deductions according to service credited, shall be paid to the retirement system following the removal of such limit, in amounts and at times approved by the retirement board. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in sections 8.523 and 8.524, provided that the portion of the salaries of the teachers as provided in section 8.525,

as a basis for fixing the contributions to be made, and the benefits to be received, by the teachers under the retirement system shall be determined by the method provided in section 8.528

and shall not be less than eighty per cent of the total salary received by the teachers, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

(3) Contributions based on time included in paragraphs (1) and (3) of section 8.525, and deducted prior to February 1, 1948, from compensation of persons who become members under section 165.2 of the charter of 1932, as amended, and standing with interest thereon, to the credit of such members

165.2 of the charter of 1932, as amended,

on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, on February 1, 1948, in the accounts of the retirement system, on account of periods the benefits under section, shall be applied to provide the benefits under this Part Three.

165.2
of the
charter
of 1932,
as amended

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his rate of contribution is determined in paragraph (1) of this section, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under this section, said percentage to be the ratio of the value of the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(6) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

8.527 Forfeiture of Rights

Notwithstanding the provisions of sections 8.520, 8.521, 8.524 or 8.526, any member convicted of a crime involving moral turpitude committed in connection with his duties as an officer or employee of the city and county, shall, upon his removal from office or employment pursuant to the provisions of this chapter, forfeit all right to any benefits under the retirement system except refund of his accumulated contributions; provided, however, that if such member is qualified for service retirement by reason of service and age under the provisions of section 8.520, he shall have the right to elect, without right of revocation and within 90 days after his removal from office or employment, whether to withdraw all of his accumulated contributions or to receive as his sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his accumulated contributions at the time of such removal from office or employment.

8.528 Contributions, Resignation and Withdrawal by Teachers

The contributions to be made by teachers and the benefits to be received by said teachers under said retirement system shall be based upon the proportion of salaries of said teachers which have been and shall be paid out of funds contributed by the city and county, excluding therefrom the portion of such salaries which have been or shall be paid out of funds contributed by the State of California; and in determining such proportion it shall be taken to be the same proportion which the whole amount of money contributed by the city and county to the common school fund in any fiscal year bears to the whole amount of money contributed to such fund in such year by the state and by the city and county; and provided, further, that nothing herein contained shall be construed to deprive any teacher of the right to receive benefits under any pension or retirement system now or hereafter established by the State of California.

in the San Francisco school department to whom the board of supervisors has determined the retirement system shall apply,

10 In the event that any teacher or other employee of the board of education resigns and withdraws, his accumulated contributions from the San Francisco City and County Employees' Retirement System, and instead within 90 days after such withdrawal in the interest of a person entitled under the State Teachers' Retirement System of California on an allowance based on the full allowance formulae under said state system, the contributions which the San Francisco Unified School District is required to make to said City and County Employees' Retirement System on account of service rendered by employees of such unified school district as such members of such system, in accordance with the rate of contribution determined under paragraph (5) of

section 8.526 of the charter, shall be reduced by an amount equal to the actuarial equivalent as of the day next following the date of such withdrawal, of the portion of the allowance to which such person would have been entitled from said City and County Employees' Retirement System, if he had not resigned, and which would have been based on his service as a member of such City and County Employees' Retirement System, minus the amount of his accumulated normal contributions withdrawn.

11 In the event that any person retired under the San Francisco City and County Employees' Retirement System from an employment status in which he was a member of the State Teachers' Retirement System, has elected or elects to relinquish his right to a retirement allowance from said City and County Employees' Retirement System, the contributions which the San Francisco Unified School District is required to make to the City and County Employees' Retirement System on account of service rendered by employees of such unified school district as members of such system in accordance with the rate of contribution determined under paragraph (5) of section 8.526 of the charter, shall be reduced by an amount equal to the actuarial equivalent as of the effective date of such relinquishment, and as determined in connection with such relinquishment, of the portion of the allowance to which said person would have been entitled had he not so elected, and which was based on his service as a member of the City and County Employees' Retirement System, minus the actuarial equivalent determined in connection with such relinquishment of the portion of the cancelled allowance which was provided by said person's accumulated normal contributions at the effective date of his retirement.

If the total of the actuarial equivalents by which the contributions required of the San Francisco Unified School District in any year are to be reduced, exceeds such contributions, the amount of the excess shall be carried over to subsequent fiscal years and applied to reduce such contributions for such years in chronological order.

8.529 Definitions

The following words and phrases as used in this Part Three unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the workmen's compensation laws of the State of California, shall mean all remuneration whether in cash or by other allowances made by the city and county, for service qualifying for credit under this section.

"Compensation earnable" shall mean the compensation as determined by the retirement board, which would have been earned by the member had the worker, throughout the period under consideration, the average number of days ordinarily worked by persons in the same grade or class of positions as the positions held by him during such period and at the rate of pay attached to such positions, it being assumed that during any absence, he was in the position held by him at the beginning of the absence, and that prior to entering city service he was in the position first held by him in city-service.

"Benefit" shall include "allowance," "retirement allowance," and "death benefit."

"Average final compensation" shall mean the average monthly compensation earned by a member during any five consecutive years of credited service in the retirement system in which his average final compensation is the highest, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

For the purposes of the retirement system and of this section, the terms "miscellaneous officer or employee," or "member," as used in this section shall mean any officer or employee who is not a member of the fire or police departments as defined in the charter for the purpose of the retirement system.

"Interest" shall mean interest at the rate adopted by the retirement board.

8.530 Conflicts

in this Part three

Any section or part of any section in this charter, insofar as it should conflict with any section, or with any part thereof, shall be superseded by the contents of this Part Three.

PART FOUR: PROVISIONS APPLYING TO MEMBERS OF THE POLICE AND
FIRE DEPARTMENTS

8.540 Service Retirement.

(a) Any member of the police department or fire department, as defined in section 8.549, who completes at least twenty-five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under section 8.547, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the two sentences next preceding, shall receive a retirement allowance equal to fifty-five per cent of the final compensation of said member, as defined in section 8.549, plus an allowance at the rate of three percent of said final compensation, for each year of service rendered after qualifying as to age and service for retirement; provided, however, that such retirement allowance shall not exceed seventy per cent of said final compensation, for each year of service rendered after qualifying as to age and service for retirement; provided, however, that such retirement allowance shall not exceed seventy per cent of said member's final compensation. A member retired after attaining the age of sixty-five years, but before completing twenty-five years of service in the aggregate computed under section 8.547, shall receive a retirement allowance which bears the same ratio to fifty percent of the final compensation of said member, as defined in section 8.549 as the service with which he is entitled to be credited, bears to twenty-five years. If, at the date of retirement for service, or retirement for disability resulting from an injury received in performance of duty, said member has no wife, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or section 8.541, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

(b) Upon the completion of the years of service set forth in subsection (a) as requisite to retirement, a member of the police department shall be entitled to retire at any time thereafter in accordance with the provisions of subsection (a), and nothing shall deprive said member of said right.

8.541 Disability Retirement.

Any member of the police department or fire department who becomes incapacitated for the performance of his duty by reason of bodily injury received in, or illness caused by performance of his duty, shall be retired. If he is not qualified for service retirement, he shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in section 8.549, as his percentage of disability is determined to be. The percentage of disability shall be as determined by the Workmen's Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five (5) affirmative votes, adjust the percentage of disability as determined by said Appeals Board; and provided, further, that such retirement allowance shall be in an amount not less than fifty per cent nor more than ninety per cent of the final compensation of said member, as defined in section 8.549. Said allowance shall be paid to him until the date upon which said member would have qualified for service retirement had he lived and rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation as defined in Section 8.549 he would have received immediately prior to said date had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation.

If at the time of retirement because of disability, he is qualified as to age and service for retirement because of disability, he is qualified as to age and service for retirement under section 8.540, he shall receive an allowance equal to the retirement allowance which he would receive if retired under section 8.540 but not less than fifty-five per cent of said final compensation. Any member of the police department who becomes incapacitated for the performance of his duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least ten years of service in the aggregate, computed as provided in section 8.547 shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in section 8.549, for each year of service provided that said allowance shall not be less than thirty-three and one-third per cent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

8.542 Allowance for Death Caused by Performance of Duty

If a member of the police department or fire department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his duty, a death allowance on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife, throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than fifty-five percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation. If he has retired prior to death for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he was a member under section 159.1 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

of the
chapter of
1932, as
amended

... Upon the death of a member resulting from any cause, other than injury received in or illness caused by performance of duty, (a) if his death occurred after qualification for service retirement under sections 8.540, or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by the performance of duty, three-fourths of his retirement allowance to which he would have been entitled if he had retired for service at the time of his death or three-fourths of his retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife or (b) if his death occurred after retirement because of disability which resulted from injury received in, or illness caused by the performance of duty, his retirement allowance as was at his death shall be continued throughout life or until marriage, to his surviving wife, except that, if death occurred or to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died. If there be no surviving wife entitled to an allowance hereunder, if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and if she remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains majority, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or the onset of the illness which results in death, if he had not retired, or unless she was married to the member at least one year prior to his retirement.

As used in this section and section 8.542, "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 8.545 in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age eighteen may make such election, and if there be no such children, the dependent parent or parents may make such election.

200

8.544 Adjustment of Allowance Received of Compensation Benefits.

That portion of any allowance payable because of the death or retirement of any member of the police department or fire department, which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits, other than medical benefits, payable to or on account of such person, under the Workmen's Compensation Insurance and Safety Law of the State of California, and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in or illness caused by performance of duty, shall be considered as in lieu of any benefits, other than medical benefits, payable to or on account of such person under the said law of the State of California, and shall be in satisfaction and discharge of the obligation of the city and county to pay such benefits.

8.545 Death Benefits Provided by Ordinance

If a member of the police department or fire department shall die before retirement, from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under sections 8.542 or 8.543, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for payment of which shall be determined in the manner prescribed by the board of supervisors for the payment of a similar benefit upon the death of other retired members.

8.546 Rights upon Termination of Employment.

Should any member of the police department or fire department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he shall again become a member of the police department, he shall redeposit in the retirement fund the amount refunded to him. Contributions with interest, which are credited because of service rendered in any other office or department and which will not be counted under section 8.547 to any person who becomes a member of the retirement system under this section, shall be refunded to him forthwith. Should a member of the police department become an employee of any other office or department, his accumulated contribution account shall be

adjusted by payments to or from him as the case may be, to make the accumulated contributions credited to him at the time of change, equal to the amount which would have been credited to him if he had been employed in said other office or department at the rate of compensation received by him in the police department, and he shall receive credit for service for which said contributions were made, according to the charter section under which his membership in the retirement system continues.

8.547 Computation of Service

The following time shall be included in the computation of the service to be credited to a member of the police department or fire department for the purposes of determining whether such member qualifies for retirement, and calculating benefits, excluding, however, any time the contributions for which were withdrawn by said member upon termination of his service while he was a member under any other charter section, and not redeposited upon re-entry into service:

(1) Time during and for which said member is entitled to receive compensation because of services as a member of the fire or police department.

(2) Time during which a member of the police department served and received compensation as a jail matron in the office of the sheriff.

(3) Time during which a member of the police department or fire department is entitled to receive compensation while a member of the retirement system, because of service rendered in other offices and departments before July 1, 1949, provided that accumulated contributions on account of such service, previously refunded, are redeposited, with interest from date of refund to date of redeposit, at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under section 8.541 for disability not resulting from injury received in, or illness caused by performance of duty, time during which said member serves, after June 30, 1949, and receives compensation because of services rendered in other offices and departments.

(4) Time during which said member is absent from a status included in paragraphs (1), (2) or (3) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in section 8.511 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his account.

8.548 Contributions to Retirement Fund

All payments provided for persons who are members under this Part Four shall be made from funds derived from the

following interest, plus interest earned on said funds:

(1) The normal rate of contribution of each member shall be based on his age at the date he becomes a member under this Part Three, in the case of persons who are members of the police department or the fire department, as the case may be, without credit for services counted under section 8.547;

or the fire department, as the case may be,

The age of entrance into the police department shall be determined by deducting the member's service credited under section 8.547 as rendered prior to the date upon which his age is based for determination of the rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under this Part Three shall be such as, on the average for such member, will provide, assuming service without interruption, under section 8.540, one third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, without discount of allowance, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent rate of contribution of each member which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 8.540, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 8.543, after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement from disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith. The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under this Part Four, a sum determined by applying the member's rate of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said members or shall be paid to said member or his estate or beneficiary as provided in sections 8.545, 8.546, and 8.547.

(4) Contributions based on time included in paragraphs (1), (2), (3), and (4) of section 168.1.9 of the charter of 1932, as amended, and deducted prior to July 1, 1945, from compensation of persons who become members under this Part Four and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this Part Four, shall be applied to provide the benefits under said section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 8.548, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), section 8.548 shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under this Part Four, said percentage to be the ratio of the value on July 1, 1945, or at the later date of a periodical actuarial

valuation and investigation. When the experience under the system of the members shall be determined under this section, the contributions of the city and county, from the account of said fund, shall be paid to the said members thereon, then held by the said fund, on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligation of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to July 1, 1945 and which were represented on July 1, 1945, in the accounts of said system by debits against the city and county.

Such ordinance, act, charter amendment or other measure may be so proposed by filing with the registrar a petition setting forth said measure in full, signed by registered voters of the city and county as many in number as the percentages hereinafter required of the entire vote for all candidates for the office of mayor cast at the last preceding regular municipal election.

Any declaration of policy may be submitted to the electors in the manner provided for the submission of ordinances; and when approved by a majority of the qualified electors voting on said declaration, it shall thereupon be the duty of the board of supervisors to enact an ordinance or ordinances to carry such policies or principles into effect, subject to the referendum provisions of this charter.

Any ordinance which the supervisors are empowered to pass may be submitted to the electors by a majority of the board at a general election or at a special election called for the purpose, said election to be held not less than thirty days from the date of the call. Any such ordinance may be proposed by one-third of the supervisors or by the mayor, and when so proposed shall be submitted to the electors at the next succeeding general election. No ordinance passed by the supervisors granting any public utility franchise or privilege, shall go into effect until the expiration of sixty days from the date it becomes final. At the end of such sixty days such ordi-

nance shall be in force and effect, unless within such period there shall be filed with the registrar a petition signed by registered voters equal in number to five per cent of the entire vote cast for mayor at the last preceding regular municipal election, requesting that such ordinance be submitted to the electors. In case such petition is filed, such ordinance shall not go into effect until approved by a majority of the voters voting thereon at a general or special election.

If, before the time any other ordinance involving legislative matters becomes effective, there shall be filed with the board of supervisors a petition signed by qualified electors of the city and county equal in number to at least ten per centum of the entire vote cast for all candidates for mayor at the last preceding general municipal election at which a mayor was elected, protesting against the passage of such ordinance the same shall be suspended from going into operation, and it shall be the duty of the board of supervisors to reconsider such ordinance, and if the same be not entirely repealed, said board shall submit the ordinance to the vote of said electors either at the next general municipal election or at a special election to be called for that purpose, and such ordinance shall not go into effect or become operative unless and until a majority of the qualified electors voting thereon shall vote in favor thereof. The provisions of sections 9.109 and 9.110 of the charter shall apply to and govern the verification and certification of such petition.

Annual budget and appropriation ordinances, supplemental appropriation ordinances, the annual salary ordinance, or ordinances amending the same, the ordinances levying taxes, any ordinance appropriating money from the emergency reserve fund, ordinances authorizing the city attorney to compromise litigation, and ordinances necessary to enable the mayor to carry out any of the powers vested in him in the case of a public emergency as defined in section 9.109 of the charter, ordinances enacted pursuant to section 9.110 of the charter, as well as ordinances relative to purely administrative matters, shall not be subject to referendum.

9.109

[8.410]

Any elective official, the director of information and complaints, the controller or any member of the board of education may be recalled by the electors. The procedure to effect such recall shall be as follows: A petition demanding the recall from office of the person sought to be recalled shall be filed with the registrar. Said petition shall contain a statement of the grounds on which the recall is sought. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held thereunder. No recall petition shall be filed against any officer until he has held his office for at least six months.

9.109 Petitions.

The filing, verification and certification of initiative, referendum and recall petitions shall be in accordance with general law, and rules and regulations of the registrar of voters relative to details not covered by general law, except as otherwise provided by this charter. Any signer to a petition may withdraw his name from the same by filing with the registrar of voters a verified revocation of his signature before the filing of the petition. No signature can be revoked after the petition has been filed. Unless and until it be

proven otherwise by official investigation by the registrar, it shall be presumed that the petition filed conforms to all legal requirements and contains the requisite number of registered voters, and the sufficiency of such petition shall not be questioned.

If any signature be questioned, the registrar shall mail notice to such purported signer, stating that his or her name is attached to such petition and citing him or her to appear before said registrar forthwith, naming the time and place. Said citation shall enclose a blank affidavit, which may be used to deny that the affiant signed such petition. If such person does not desire to attend in person, he may swear to such affidavit of denial before any officer authorized to take oaths, and mail the same to the registrar. If he does not so attend and deny such signature in person or by affidavit, and failing such affidavit of denial before the registrar, the signature to such petition must be treated as genuine. The registrar shall keep a list of the names of all purported signers who appear before him and deny their signature under oath, and also file and keep such affidavits of denial.

9.110 Special Election Fund.

The board of supervisors shall maintain a fund of not less than fifty thousand dollars to be known as the special election fund, to be used exclusively for paying the costs of verifying petitions and other expenses of all special elections initiated by petitions of the electorate, including recall elections. In the event of the expenditure of any of said fund, the board of supervisors in the next succeeding annual budget shall appropriate a sum sufficient to reimburse said special election fund.

9.111 Time of Election.

If the petition accompanying a proposed initiative measure, declaration of policy, or recall be signed by registered voters equal in number to ten per cent of the entire vote cast for mayor at the last preceding general municipal election and contains a request that said measure, policy or recall be submitted forthwith to a vote of the electorate at a special election, then the registrar shall forthwith call a special election, which shall be held at a date not less than thirty nor more than forty days from the date of calling the same, at which said measure or policy, without alteration, or said recall shall be submitted to a vote of the electorate, unless within sixty days of a general or primary election, in which event it shall be submitted at such general or primary election.

If the petition accompanying a proposed initiative measure or declaration of policy be signed by registered voters equal in number to five per cent but less than ten per cent of the said entire vote, then such measure or measures, without alteration, shall be submitted by the registrar to a vote of the electorate at the next general state or municipal election that shall occur at any time after thirty days from the date of the certificate of sufficiency attached to the petition accompanying such measure unless the board of supervisors, by ordinance, direct that the measure or policy be voted on at a special election prior thereto.

9.112 Material on Measures Mailed to Voters.

Whenever any measure is required by this charter to be submitted to the voters of the city and county at any election, the clerk shall cause the measure or policy to be printed on sheets and shall mail the same to each voter in the city and county.

When a recall petition is filed, the clerk shall mail to each voter prior to a recall election the reasons for demanding the recall, as set forth in the recall petition, printed in plain, bold words, and with or upon the same shall be printed the name of the officer in not more than three hundred words, justifying his course.

If the proposition be submitted to the registered voters upon an initiative, referendum or recall petition, the persons filing said petition shall have the right, upon deposit of an amount sufficient to defray the cost of printing as estimated by the registrar, to present to the registrar at any time not later than thirty-five days prior to said election, written arguments favoring their petition, and the registrar shall not accept arguments favoring said petition without the approval of those filing said petition; provided that, as to any proposition to be submitted to the voters at a special election, in accordance with section 9.111 hereof, to be held within thirty-five days of the date of calling such election, such arguments may be presented to the registrar at any time twenty-five days prior to said election. If said proposition be submitted by the mayor or by the board of supervisors, or by one-third of the board of supervisors, they shall have a similar right, but without the making of such deposit, to present arguments. The board of supervisors may also in its discretion, by motion, grant to any proponents of propositions submitted by the board a similar right, which may be exercised, subject to the approval of such arguments by motion of the board and upon the making of such deposit. Any persons, committee or organization opposing the measure, policy, charter amendment, or recall placed before the voters may present, upon making a deposit as aforementioned, and in like manner and within the same time, written arguments opposing said proposition.

Said arguments shall not contain more than 1800 words, nor exceed four pages in length when printed. They shall be signed by the persons or the presiding or executive officials of the committee or organization presenting them. The registrar shall cause said arguments to be printed in a pamphlet approximately six by nine inches in size in one color of ink and in uniform style. They shall be arranged in numerical or alphabetical order according to the number or letter of the proposition to which they refer, and the affirmative in each case shall precede the negative. The registrar shall charge a uniform fee per page sufficient to cover the cost of printing said pamphlet, returning to depositors any excess of deposits. He shall mail one copy with the sample ballot to each voter.

Immediately after introduction in the board of supervisors, or filing with the clerk thereof, of any measure to be submitted to the voters, or of the filing of a petition of the voters for submission of

any proposed amendment of the charter, in accordance with the provisions of Article XI, Section 8, of the Constitution of California, the clerk of the board shall deliver a copy of such proposition to the controller. The controller shall thereupon determine whether, in his opinion, such proposition, if adopted, will increase the cost of government of the city and county or in any way affect its tax rate. The controller shall make a written statement thereon to the board of supervisors, analyzing such proposition as to its cost and effect upon the tax rate. Such statement shall be in form appropriate for mailing to the voters with a sample ballot. Upon vote of submission of any such proposition, which, in the opinion of the controller, will in any way affect the cost of government or the tax rate and as to all propositions to create a bonded debt, the controller shall transmit a copy of such statement in relation thereto to the registrar of voters, who shall mail one copy thereof to each voter with the sample ballot. In the pamphlet of arguments, the position of the statement of the controller shall in each instance be next in order after the negative argument.

9.113 Form of Ballot---Majority Vote.

The ballots used when voting upon any proposed measure, referendum, policy, recall or confirmation shall contain a general statement thereof, followed by the words "Yes" and "No," so arranged that the voter may indicate his choice upon the ballot. If a majority of the qualified electors voting on said proposed measure, referendum, policy, recall or confirmation shall vote in favor thereof, it shall go into effect ten days after the declaration of the official count. The general statement or question provided for in this section shall be prepared by the city attorney and shall consist of not over thirty words.

If the official proposed to be removed at any recall election shall, as the result of said election, be recalled, the mayor shall appoint his successor for the unexpired term and the officer so recalled shall be ineligible to hold any city and county office for two years; should said officer be retained in his office, he shall be reimbursed out of the special election fund for his expenses in such recall election; provided that such payment shall not exceed the amount he is permitted to spend under the Purity of Elections Act now in force.

9.114 Competing and Conflicting Measures---Repeal.

When two or more proposed measures are of the same general purpose, the registrar shall so declare, and shall cause the ballots to be so printed that the voter, first, may choose between any measure or none, and, secondly, may express his preference for any one. If a majority of the votes on the first question is affirmative, then the measure receiving the highest number of votes shall become law and the others fail of passage. In case two or more measures are tied for the highest vote, they shall be resubmitted at the next ensuing general election. If there is a conflict between two or more measures or between two or more charter amendments adopted at the same election, then the measure or charter amendment receiving the highest affirmative vote shall prevail.

10.101 Headings and Captions

Headings and captions used in this charter, whether the same occur between sections or immediately preceding section numbers, are hereby declared to be for no other purpose than the convenient indication of the general subject matter of the provisions which follow, and they shall not be considered or construed in connection with the text of this charter in any way so as to alter or modify the meaning or intent of the provisions of this charter, as such meaning or intent would be determined if such headings and captions were not used.

10.102 Constitutionality

If any section, subsection, or subdivision, sentence, clause or phrase of this charter is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portion or portions of this charter. The people of the City and County of San Francisco hereby declare that they would have ratified and adopted, and the Legislature hereby declares that it would have approved, this charter, and each section, subsection or subdivision, sentence, clause and phrase hereof as the charter of the City and County of San Francisco, irrespective of the fact that any one or more other sections, subsections or subdivisions, sentences, clauses or phrases be declared unconstitutional.

11.100 Continuity of Rights and Obligations

All rights and titles to property, all rights and obligations under contracts or trusts, and all causes of action of any kind in any court or tribunal vested in the City and County of San Francisco or in any officer or employee thereof in his official capacity, at the time this charter becomes effective, as well as all liabilities in contract or tort and causes of action involving the same in so far as they affect the city and county or any officer or employee thereof in his official capacity which shall be outstanding, at the time this charter becomes effective, shall continue without abatement or modification by reason of any provision hereof.

11.101 Continuity of Existing Laws

All ordinances or resolutions in force at the time this charter takes effect and not inconsistent therewith shall continue in force until amended or repealed. All public improvements or other proceedings legally authorized under the charter superseded by this charter shall be carried to completion under previously existing laws or under this charter. The powers or duties vested in city and county officers, boards or commissions by law or under the charter superseded by this charter shall be exercised, continued and carried out by their successors or by other city and county officers, boards or commissions, consistent with the provisions of this charter.

11.102 Continuity of Functions, Powers and Duties

All functions of the city and county, and the powers and duties of officers and employees charged with the performance thereof, as these shall have been apportioned among departments and offices, and institutions, utilities, bureaus or other subdivisions thereof, as existing at the time this charter shall go into effect, shall continue to be the functions of such departments and offices and the powers and duties of officers and employees assigned thereto, except as in, or under authority of, this charter otherwise specifically provided. The legally authorized officers and employees of each of said departments and offices or subdivisions thereof shall continue as the officers and employees of said departments and offices or subdivisions thereof, subject to the conditions governing their respective appointments to such positions, and except as in this charter otherwise provided; and where part of the functions and duties of any department or office are, by this charter, transferred or placed in any other department or office, the persons performing such functions and duties, shall be transferred therewith. The compensations legally authorized for the several officers and employees shall be continued subject to the other provisions of this charter.

The powers and duties of the departments and offices which by this charter are established or continued as departments or offices under elective officers, boards or commissions or the chief administrative officer, as such powers and duties exist at the time this charter shall go into effect, shall be continued as powers and duties of each such department or office, except as otherwise provided in this charter.

11.103 Effective Date of Charter

This charter shall take effect _____

Upon its approval by the Legislature of the State of California, this charter shall take effect as herein provided and shall supersede the charter of the said city and county in force at the time immediately preceding such approval.

VOLUME TWO

The material in this Volume Two goes beyond Volume One, which only eliminates obsolete language and reorganizes the present charter provisions. This volume contains the Committee's first year recommendations as they appeared in Proposition "E" (these sections are indicated in the Table of Contents by the word "new"), together with a rewrite of the remaining two-thirds of the Charter, which:

- (1) simplifies and modernizes the language; and
- (2) eliminates detailed procedure while preserving the substantive essence.

This volume then carries out the Committee's objective with respect to this two-thirds of the charter not considered the first year, of providing a brief, clear enabling charter, free of procedural detail.

Please refer to the comparable sections in Volume One to see what changes have resulted. A comparison of the Table of Contents in Volume One with that in this volume will disclose where these changes have occurred. In some cases, particularly with regard to the functions and duties of boards and commissions (eg. the Civil Service Commission) some material has been moved back and forth between sections. For example, many of the functions and duties of the Civil Service Commission are buried in sections in Article 8 which set out the examination process. These functions and duties have been transferred to the sections in Article 3 which describe the functions and duties of boards and commissions.
